Abstracts

REPORT SCOPE:

The scope of this report is focused on a select 10 companies in 3D printing, and the key areas in the field that are driving industry growth allowing these companies to succeed. These areas include Stereolithography, directed energy deposition, material extrusion, VAT photopolymerization, power bed fusion, selective laser sintering (SLS), metal binder jetting, selective laser melting (SLM), and electron beam melting (EBM). Additionally, a key area BCC Research explores is industry structure, noting strategic alliances and acquisitions along with pertinent patent information.

The scope of the report covers the overview of the global market for 3D printing and analyses of the global market trends, with data from 2017 to 2023 with projection of CAGR during 2018 to 2023. The sales values are presented in US dollars, while volumes are presented in kilotons units. Estimated values used are based on manufacturers' total revenues. Projected and forecasted revenue values are in constant US dollars, unadjusted for inflation.

REPORT INCLUDES:

Details of Top 3D printing companies that are considered leaders and have greatest commercial potential

Information on the global R&D activities related to 3D printing, resulting in the issuance or grant of patents

Analysis of the competitive landscape and key competitors' market, their proprietary technologies, strategic alliances, market share analysis, or other advantages

Examination of key drivers and constraints that will shape the market for 3D printing technologies over the next five years

Contents

CHAPTER 1 INTRODUCTION

Study Goals and Objectives
Reasons for Doing the Study
Scope of Report
Intended Audience
Methodology and Information Sources
Analyst's Credentials
BCC Custom Research
Related BCC Research Reports

CHAPTER 2 SUMMARY AND HIGHLIGHTS

CHAPTER 3 TECHNOLOGY OVERVIEW

Market Evolution
3D Printing Technologies
Powder Bed Fusion
VAT Photopolymerization
Material Extrusion
Three-Dimensional (3D) Inkjet Printing/Jetting
Directed Energy Deposition
Other Emerging Technologies

CHAPTER 4 MARKET OVERVIEW

Introduction
Industry Structure
Printer Manufacturers
Material Suppliers
Software Developers
Service Providers
Future Expectations
3D Printing Applications
Rapid Prototyping
Rapid Manufacturing
Customization

Top Ten 3D Printing Companies

Market Dynamics and Global Market Drivers

Increasing Use of 3D Printing in Aerospace, Automotive and Medical Applications

Mass Customization

Growing Demand from Architects

Reduced Cost of Prototyping in Manufacturing

Restrains

Lack of Expertise/Skills and Knowledge

High Cost of Materials and Industrial Printers

Opportunities

Adoption of 3D Printing Technology in the Construction Industry

Patient-Specific Personalized Devices

3D Printing Market by Component

Introduction

3D Printing Market Breakdown by Region

Introduction

Market Outlook for 3D Printers

3D Printer Types

Patents

Encoded Consumable Materials and Sensor Assemblies for Use in Additive Manufacturing Systems

Three-Dimensional Bioresorbable Scaffolds for Tissue Engineering Applications

Low-Viscous, Radiation Curable Formulation, Particularly for the Stereo-Lithographical Production of Earpiece

Material System for Use in Three-Dimensional Printing

Detoxification of Solid Freeform Fabrication Materials

Wetting Agent for Infiltrated Aluminum Preforms

Metal Powder Composition for Laser Sintering

CHAPTER 5 COMPETITIVE ANALYSIS

Introduction

Market Share Analysis

Strategy Analysis

CHAPTER 6 TOP 10 COMPANIES

3D SYSTEMS, INC.

DESKTOP METAL, INC.

EOS

Top Ten 3D Printing Companies

EXONE
GE ADDITIVE
HP
MARKFORGED INC.
MATERIALISE
NANO DIMENSION
STRATASYS LTD.

CHAPTER 7 APPENDIX: ABBREVIATIONS

List Of Tables

LIST OF TABLES
