## Abstracts

### REPORT SCOPE:

This report examines the current and forecasted market potential for total knee replacement. It offers a detailed analysis of the market background, technological advancement, competitive environment, drivers and restraints, and market growth trends. This report includes market projections through 2026, detailing the market share for total knee replacement based on the product and implant type.

By product, the total knee replacement market is segmented into primary total knee replacement and revision total knee replacement. By implant type, the total knee replacement market is segmented into fixed-bearing implants, mobile-bearing implants and others.

By geography, the total knee replacement market is segmented into Europe, North America, Asia-Pacific (APAC) and the Rest of the World (RoW). The detailed analyses of major countries such as the U.S., Germany, Canada, U.K., Spain, Italy, France, Japan, India and China are regional segments. For market estimates, data is provided for 2020 as the base year, 2021 and forecast through year-end 2026. Estimated values used are based on total knee replacement implant manufacturers' total revenues. Projected and forecast revenue values are in constant U.S. dollars that are unadjusted for inflation.
