## Abstracts

### Report Scope:

This report aims to provide a comprehensive study of the global market for veterinary vaccines. It describes the different types of veterinary vaccines products, technology, and their current and historical market revenues.

Veterinary vaccines include designs and different technology along with applications. The product of veterinary vaccines are segmented into attenuated vaccine (live vaccine, modified live vaccine, live attenuated vaccine), inactivated vaccine, recombinant vaccine (subunit vaccine, polysaccharide vaccine, conjugate vaccine, chimeric vaccine, viral-vector vaccine), and toxoid vaccine.

This report also covers a detailed study of animal species in the veterinary vaccines market, including livestock, poultry, companion animals, swine, equine, and others (aquaculture, etc.) An in-depth analysis of the global market for veterinary vaccines includes historical data and market projections on sales by technology/system type, product, application, design, and region.

For an in-depth understanding of the market, profiles of market participants, essential marketed products, competitive landscape, key competitors, ESG analysis, and their respective market shares have been provided. This report also discusses the driving and restraining factors of the global veterinary vaccines market.

### Report Includes:

145 data tables and 45 additional tables

A comprehensive overview of the current and future global markets for

## veterinary vaccines

Analyses of the global market trends, with historic market revenue data (sales figures) for 2020-2022, estimates for 2023, and projections of compound annual growth rates (CAGRs) through 2028

Estimation of the actual market size and revenue forecast for global veterinary vaccines market in USD millions, and corresponding market share analysis based on the product, type of attenuated and recombinant vaccines, animal type, route of administration, and region

Highlights of upcoming market opportunities and trends driving and restricting growth of global veterinary vaccines market and its sub-segments, and major regions and countries involved in the market developments

In-depth information (facts and figures) concerning major market dynamics (DROs), technology advancements, regulatory aspects, and various macroeconomics factors influencing the demand and progress of this market

Country specific data and market value analysis for the U.S., Canada, Mexico, Germany, France, Italy, Spain, the UK, Japan, China, India, Australia and New Zealand (ANZ), Brazil, Argentina, South Africa, and GCC countries, among others

Information about ESG-related developments in the animal health industry, key issues, implementation strategies, and analyses of factors affecting ESG applications in the market

Identification of the companies engaged in research and development (R&D) of vaccination and vaccine production, emerging technologies, and a SWOT analysis of leading competitors and their market penetration

Company profiles of major players within the industry, including Boehringer Ingelheim, Dechra, Elanco, Merck & Co. Inc., and Zoetis Services LLC

## Contents

### **CHAPTER 1 INTRODUCTION**

Study Goals and Objectives  
Reasons for Doing This Study  
Scope of Report  
Information Sources  
Methodology  
Geographic Breakdown  
Analyst's Credentials  
BCC Custom Research  
Related BCC Research Reports

### **CHAPTER 2 SUMMARY AND HIGHLIGHTS**

Market Outlook

### **CHAPTER 3 MARKET OVERVIEW**

Overview of Veterinary Vaccines  
Animal Types and Vaccination  
Livestock  
Companion Animals  
Equine Animals  
Swine  
Poultry  
Other Animals  
Vaccines and Veterinary Products Export  
Trends in Animal Healthcare  
Growing Demand for Animal Health Products

### **CHAPTER 4 MARKET DYNAMICS**

Market Dynamics  
Drivers  
Incidence and Prevalence of Animal Disease  
Global Warming and Impact on Veterinary Animals  
Increase in Investment for Treating and Eradicating Diseases in Animals

Emergence of Zoonotic Diseases  
Rise in Awareness Programs on Veterinary Vaccines  
Vaccines and Food Production  
Restrictions  
Product Development and Manufacturing Challenges  
Side Effects of Vaccination  
Financial Prioritization and Herd Immunity Risk  
Other Restrictions  
Opportunities  
Launch of New Veterinary Vaccines  
Reducing the Need for Antibiotics  
Funding for Innovative Veterinary Vaccines and Services

## **CHAPTER 5 IMPACT OF COVID-19 ON ANIMAL HEALTH AND PRODUCTION FACILITIES**

Overview  
Short-Term Impact  
Long-Term Impact  
COVID-19 Impact on Animal Welfare  
Animal Disease Management  
Vaccination Campaigns

## **CHAPTER 6 EMERGING TECHNOLOGIES IN VETERINARY VACCINES**

Overview  
Multivalent Veterinary Vaccines  
mRNA Vaccine  
Pipeline Analysis of Animal Vaccines

## **CHAPTER 7 GLOBAL MARKET FOR VETERINARY VACCINES, BY PRODUCT**

Introduction  
Attenuated Vaccine  
Inactivated Vaccine  
Toxoid Vaccines  
Recombinant Vaccine

## **CHAPTER 8 GLOBAL MARKET FOR VETERINARY VACCINES, BY TYPE OF**

## **ANIMAL**

Overview  
Market Outlook  
Livestock  
Poultry  
Companion Animals  
Swine  
Equine  
Other Animals

## **CHAPTER 9 GLOBAL MARKET FOR VETERINARY VACCINES, BY ADMINISTRATION**

Global Market for Veterinary Vaccines by Administration  
Subcutaneous Route of Administration  
Intramuscular Route of Administration  
Intranasal Route of Administration  
Oral Route of Administration

## **CHAPTER 10 GLOBAL MARKET FOR VETERINARY VACCINES, BY REGION**

Global Markets for Veterinary Vaccines by Region  
North America  
United States  
Canada  
Mexico  
Europe  
Germany  
Italy  
France  
United Kingdom  
Spain  
Rest of Europe  
Asia-Pacific  
Japan  
India  
Australia and New Zealand  
China

Rest of Asia-Pacific  
Latin America  
Brazil  
Argentina  
Rest of Latin America  
Middle East & Africa  
GCC Countries  
South Africa  
Rest of the Middle East & Africa

## **CHAPTER 11 COMPETITIVE LANDSCAPE**

Global Analysis of Company Shares  
SWOT Analysis

## **CHAPTER 12 M&A AND FUNDING OUTLOOK**

M&A Analysis  
Fundings in Animal Healthcare

## **CHAPTER 13 SUSTAINABILITY OF THE ANIMAL HEALTH INDUSTRY: AN ESG PERSPECTIVE**

Overview of ESG  
Key ESG Issues in the Animal Healthcare Industry  
Animal Health Industry ESG Performance Analysis

## **CHAPTER 14 COMPANY PROFILES**

ARKO LABORATORIES  
AVIMEX  
BOEHRINGER INGELHEIM INTERNATIONAL GMBH  
CEVA SANTE ANIMALE (CEVA)  
DECHRA PHARMACEUTICALS.  
ELANCO.  
MERCK & CO. INC.  
PHIBRO ANIMAL HEALTH CORP.  
VIRBAC  
ZOETIS SERVICES LLC.
