Report Scope:

This report provides an overview and description of the global market scenario for water softeners. It also includes an analysis of global market trends based on market data from 2017. Using 2017 as the base year, the report provides estimated market data, including compound annual growth rate (CAGR) projections, for the forecast period 2018 through 2023.

The report discusses technological, regulatory and economic trends that are affecting the water softener market. It also explains the major drivers, restraints and regional dynamics of the global water softener market, as well as current trends within the industry. The market is further segmented and forecasted for major countries such as the U.S., Canada, Germany, France, China, the U.K. and India. The report focuses exclusively on point of entry water softeners.

The different types of water softeners considered in the report include salt-based water softeners, salt-free water softeners, and magnetic water softeners. The report also includes discussions of end-use sectors including the industrial, residential and commercial sectors.

The conclusion of the report focuses on the competitive landscape. The report discusses the key strategies adopted by manufacturers and provides detailed profiles of the major manufacturers in the global water softener market. Estimated values used are based on manufacturers' total revenues. Projected and forecasted revenue values are in constant US dollars, unadjusted for inflation

Report Includes

28 data tables and 36 additional tables

Detailed overview of the global market for water softeners

Country specific data and analysis for United States, Canada, France, Germany, U.K., China, India, Japan, Middle East and Africa

Characterization and quantification of market potential for water softeners by type, application area, end use industry and geographical region

Impact analysis of major drivers and restraints, and regional dynamics of the global water softeners market and current trends within the industry

Discussion of technological, regulatory, and economic trends that are affecting the water softeners market

Detailed profiles of the major players in the industry, including 3M Co., Best Water Technology (BWT), Evoqua Water Technologies LLC, GE Appliances and Whirlpool Corp.

CHAPTER 2 SUMMARY AND HIGHLIGHTS

CHAPTER 3 MARKET OVERVIEW

Introduction
History of Water Treatment and Water Softeners
Foreseeable Future Developments
Government Regulations
U.S. Regulations
E.U. Regulations
Chinese Regulations
Indian Regulations
Water Softening Process
What Is Hard Water?
Sources of Water Hardness
Problems Caused by Hard Water
Water Softening Techniques
Types of Water Softeners
Salt-Based Water Softeners (Ion Exchange)
Salt-Free Water Softeners (Catalytic Media)
Reverse Osmosis (Ultrafine Filtration Under Pressure)
Magnetic Water Softeners (Using Magnets)
Factors Driving the Growth of the Water Softeners Market
Growing Prevalence of Hard Water Around the World
Demographics and Economic Growth

Water Use and Water Pollution
Growth in Developing Countries
Technological Improvements
Regulations and Legislation
Untreated Wastewater
Factors Restraining the Growth of the Water Softeners Market
General Dislike of Chemical Treatment Technologies
Salt-based Water Softeners are a Threat to the Environment
Alternate Filtration Technologies Substituting Chemical-Based Water Softening Technologies
Opportunities in the Water Softeners Market
Depletion of Freshwater Resources
Scarcity of Clean Water in Developing and Underdeveloped Countries

CHAPTER 4 MARKET BREAKDOWN BY TECHNOLOGY

Overview
Water Softener Systems
Whole-House Water Softeners
Non-electric Water Softeners
Metered Water Softeners
Time Clock Water Softeners
Types of Water Softeners Based on Water Softening Technique
Market Size Estimation and Forecast
Salt-based Water Softeners
Introduction
Market Size Estimation and Forecast
Salt-based Water Softeners by Resin Type
Market Size Estimation and Forecast
Salt-Free Water Softeners
Introduction
Market Size Estimation and Forecast
