Report Scope:

This report forecasts the growth prospects of the wireless sensor devices market for 2017 and 2018–2023. These forecasts are segmented by the following parameters: sensors, technology/standard, and end applications. The technology/standard is further segmented into Zigbee and RF4CE, Bluetooth and Bluetooth Smart, Wi-Fi and 6LoWPAN, RFID, and Other 802.15.4 based standards/technologies. The end applications are classified into home automation and other indoor applications, energy infrastructure, healthcare, industrial automation, logistics and transport, ecology and agriculture, defense and surveillance. The report also discusses strategies that major players have adopted in the wireless sensors Americas market.

Report Includes:

23 tables

Comprehensive overview of the Americas market for wireless sensors technologies

Analyses of the global market trends with data from 2017, estimates for 2018, and projections of compound annual growth rates (CAGRs) through 2023

Country specific data and analysis for U.S., Canada, Mexico, Brazil, Argentina and other emerging economies

Coverage of various state-of-the-art wireless sensor technologies and

segmentation of the market by wireless standards, technologies, industry end users and application segments

U.S. Patent Analysis for innovations and new developments within the market

Study of impact analysis and discussion of technological, regulatory, and economic trends that are affecting the market

Company profiles of major corporate players within the semiconductor manufacturing industry, including ABB, Digi International, Emerson Electric Co. Endress + Hausser, Honeywell International Inc. HP (Aruba Networks), Johnson Controls International plc, and NXP Semiconductors

CHAPTER 2 SUMMARY AND HIGHLIGHTS

CHAPTER 3 MARKET OVERVIEW

Key Trends in the Americas Wireless Sensor Market
Mergers and Acquisitions
Market Drivers
Increased Adoption of Wireless Sensors Across Various Applications for Remote Monitoring
The Growth of Smart Cities
The Growth of Industrial Internet of Things
Market Restraints
Security and Privacy Issues of WSNs
Global Market Opportunities
Rising Potential for Wireless Sensors in Environmental Monitoring (Ecology) and Agriculture
Synergies/Collaborations Between Various Wireless Standards and Their Increasing Usage in Industrial Applications

CHAPTER 4 MEASURABLE PARAMETERS

Introduction
Wireless Temperature Sensors
Manufacturers
Wireless Pressure Sensors

CHAPTER 5 WIRELESS SENSOR MARKET BY WIRELESS STANDARD/TECHNOLOGY

Introduction
802.15.4 Standard/Technology
Bluetooth and Bluetooth Smart
Technology and Implementation Overview
Bluetooth Smart: The Game Changer
&^%gh RFID
RFID Origins
Technology Overview and Implementation
Near-Field Communication: A Special Case of RFID
