The pandemic has exacerbated the risks associated with the decade-long wave of global debt accumulation. It is also likely to steepen the long-expected slowdown in potential growth over the next decade.

The world has entered the COVID-19 epidemic recovery period. In this complex economic environment, we published the *Global Bacterial Endotoxin Testing Market Status, Trends and COVID-19 Impact Report 2021*, which provides a comprehensive analysis of the global Bacterial Endotoxin Testing market.
