## Abstracts

In the past few years, the GNSS (Global Navigation Satellite System) Positioning Chips market experienced a huge change under the influence of COVID-19, the global market size of GNSS (Global Navigation Satellite System) Positioning Chips reached 2912.4 million \$ in 2021 from xx in 2016 with a CAGR of xx from 2016-2021 is. As of now, the global COVID-19 Coronavirus Cases have exceeded 500 million, and the global epidemic has been basically under control, therefore, the World Bank has estimated the global economic growth in 2021 and 2022. The World Bank predicts that the global economic output is expected to expand 4 percent in 2021 while 3.8 percent in 2022. According to our research on GNSS (Global Navigation Satellite System) Positioning Chips market and global economic environment, we forecast that the global market size of GNSS (Global Navigation Satellite System) Positioning Chips will reach 3520.0 million \$ in 2027 with a CAGR of % from 2022-2027.

Due to the COVID-19 pandemic, according to World Bank statistics, global GDP has shrunk by about 3.5% in 2020. Entering 2021, Economic activity in many countries has started to recover and partially adapted to pandemic restrictions. The research and development of vaccines has made breakthrough progress, and many governments have also issued various policies to stimulate economic recovery, particularly in the United States, is likely to provide a strong boost to economic activity but prospects for sustainable growth vary widely between countries and sectors. Although the global economy is recovering from the great depression caused by COVID-19, it will remain below pre-pandemic trends for a prolonged period. The pandemic has exacerbated the risks associated with the decade-long wave of global debt accumulation. It is also likely to steepen the long-expected slowdown in potential growth over the next decade.

The world has entered the COVID-19 epidemic recovery period. In this complex economic environment, we published the Global GNSS (Global Navigation Satellite System) Positioning Chips Market Status, Trends and COVID-19 Impact Report 2022, which provides a comprehensive analysis of the global GNSS (Global Navigation Satellite System) Positioning Chips market.
