from 2021-2026.

Due to the COVID-19 pandemic, according to World Bank statistics, global GDP has
shrunk
by about 3.5% in 2020. Entering 2021, Economic activity in many countries has started
to
recover and partially adapted to pandemic restrictions. The research and development
of
vaccines has made breakthrough progress, and many governments have also issued

various
policies to stimulate economic recovery, particularly in the United States, is likely to provide

a strong boost to economic activity but prospects for sustainable growth vary widely between countries and sectors. Although the global economy is recovering from the great

depression caused by COVID-19, it will remain below pre-pandemic trends for a prolonged

period. The pandemic has exacerbated the risks associated with the decade-long wave of

global debt accumulation. It is also likely to steepen the long-expected slowdown in potential growth over the next decade.

The world has entered the COVID-19 epidemic recovery period. In this complex economic

environment, we published the Global Harbor Operations Software Market Status, Trends
