In the past few years, the Non Profit Software market experienced a huge change under the
influence of COVID-19, the global market size of Non Profit Software reached 554 million $ in
2021 from 501 in 2016 with a CAGR of 3.41% from 2016-2021 is. As of now, the global COVID-19
Coronavirus Cases have exceeded 200 million, and the global epidemic has been basically under
control, therefore, the World Bank has estimated the global economic growth in 2021 and 2023.
The World Bank predicts that the global economic output is expected to expand 4 percent in
2021 while 3.8 percent in 2022. According to our research on Non Profit Software market and
global economic environment, we forecast that the global market size of Non Profit Software will
reach 594 million $ in 2027 with a CAGR of % from 2022-2027.

Due to the COVID-19 pandemic, according to World Bank statistics, global GDP has shrunk by
about 3.5% in 2020. Entering 2021, Economic activity in many countries has started to recover
and partially adapted to pandemic restrictions. The research and development of vaccines has
made breakthrough progress, and many governments have also issued various policies to

stimulate economic recovery, particularly in the United States, is likely to provide a strong boost to economic activity but prospects for sustainable growth vary widely between countries and sectors. Although the global economy is recovering from the great depression caused by COVID-19, it will remain below pre-pandemic trends for a prolonged period. The pandemic has exacerbated the risks associated with the decade-long wave of global debt accumulation. It is also likely to steepen the long-expected slowdown in potential growth over the next decade.

The world has entered the COVID-19 epidemic recovery period. In this complex economic environment, we published the Global Non Profit Software Market Status, Trends and COVID-19 Impact Report 2022, which provides a comprehensive analysis of the global Non Profit Software market , This Report covers the players' data, including: revenue, gross margin, business distribution etc., these data help the consumer know about the competitors better.
