It is also likely to steepen the long-expected slowdown in potential growth over the next decade.

The world has entered the COVID-19 epidemic recovery period. In this complex economic environment, we published the Global Passenger Aircraft Market Status, Trends and COVID-19 Impact Report 2021, which provides a comprehensive analysis of the global Passenger Aircraft market, This Report covers the manufacturer data, including: sales volume, price, revenue, gross margin, business distribution etc., these data help the consumer know about the competitors better.
