Due to the COVID-19 pandemic, according to World Bank statistics, global GDP has shrunk
by about 3.5% in 2020. Entering 2021, Economic activity in many countries has started to
recover and partially adapted to pandemic restrictions. The research and development of
vaccines has made breakthrough progress, and many governments have also issued various
policies to stimulate economic recovery, particularly in the United States, is likely to provide

a strong boost to economic activity but prospects for sustainable growth vary widely between countries and sectors. Although the global economy is recovering from the great depression caused by COVID-19, it will remain below pre-pandemic trends for a prolonged period. The pandemic has exacerbated the risks associated with the decade-long wave of global debt accumulation. It is also likely to steepen the long-expected slowdown in potential growth over the next decade.

The world has entered the COVID-19 epidemic recovery period. In this complex economic environment, we published the Global UCP (Unified Communication Platform) Market Status, Trends and COVID-19 Impact Report 2021, which provides a comprehensive analysis of the global UCP (Unified Communication Platform) market , This Report covers the manufacturer data, including: sales volume, price, revenue, gross margin, business distribution etc., these data help the consumer know about the competitors better.
