This report will be delivered in 1-5 working days.

### Introduction to Asia-Pacific Space Carbon Fiber Composite Market

The Asia-Pacific space carbon fiber composite market was valued at \$91.1 million in 2023 and is projected to reach \$351.0 million by 2033. The space carbon fiber composites market is expected to grow significantly, driven by various key factors. These include increasing demand for lightweight small satellites, particularly for communication and Earth observation applications. Additionally, the market's growth is fueled by the expansion of the commercial space sector and the introduction of reusable launch vehicles. Furthermore, advancements in manufacturing methods and materials are crucial contributors to driving market expansion.

### Market Introduction

The Asia-Pacific (APAC) space carbon fiber composite market is poised for substantial growth, influenced by several key factors. One significant driver is the escalating demand for lightweight small satellites, particularly for communication and Earth observation purposes across the region. Additionally, the expanding commercial space sector in APAC, coupled with the emergence of reusable launch vehicles, further fuels market growth. Moreover, advancements in manufacturing techniques and materials play a crucial role in propelling market expansion, enhancing the production efficiency and performance of space carbon fiber composites. With these dynamics in play, the APAC space carbon fiber composite market is positioned to experience notable

advancement, catering to the increasing demand for advanced materials in the region's burgeoning space industry.

## Market Segmentation

### Segmentation 1: by Application

Satellites

Launch Vehicles

Deep Space Exploration

### Segmentation 2: by Country

Japan

India

Rest-of-Asia-Pacific

How can this report add value to an organization?

**Platform/Innovation Strategy:** The players operating in this market are developing advanced composite material profiles and are deeply engaged in long-term partnerships and collaborations with commercial and government agencies. Moreover, the study also examines the investment scenario in the research and development of the space carbon fiber composite market.

**Growth/Marketing Strategy:** The APAC space carbon fiber composite market has seen major development activities by key players operating in the market, such as business expansion activities, contracts, mergers, partnerships, and collaborations.

**Competitive Strategy:** The study has analyzed and profiled the APAC space carbon fiber composite manufacturers, startups, and emerging players in advanced composite manufacturing in the APAC space carbon fiber composite market. These companies capture the maximum share in the APAC space carbon fiber composite market.

Moreover, a detailed competitive benchmarking of the companies and organizations operating in the APAC space carbon fiber composite market has been carried out, which will help the reader to understand how players are performing, exhibiting a clear market landscape. In addition to this, comprehensive competitive strategies such as partnerships, agreements, and collaborations will aid the reader in understanding the untapped revenue pockets in the market.

### Key Market Players and Competition Synopsis

The companies that are profiled have been selected based on thorough secondary research, which includes analyzing company coverage, product portfolio, market penetration, and insights gathered from primary experts.

Some prominent names established in this market are:

CST Composites

Teijin Limited

## Contents

Executive Summary

Scope of the Study

### 1 MARKETS

#### 1.1 Industry Outlook

1.1.1 Composite Materials for Space Applications: Overview

1.1.2 Trends Fueling Space Carbon Fiber Composite Market

1.1.3 Ongoing and Upcoming Programs

1.1.3.1 European Union Space Carbon Project

1.1.3.2 NASA's Super Lightweight Aerospace Composites (SAC)

1.1.3.3 Oak Ridge National Laboratory Carbon-Carbon Composites

1.1.4 Key Composite Suppliers

#### 1.2 Business Dynamics

1.2.1 Business Drivers

1.2.1.1 Increase in the Demand for Satellites

1.2.1.2 Growing Number of Deep Space Exploration Programs

1.2.1.3 Increase in the Utilization of Carbon Fiber Composite in Small Launch

Vehicles

1.2.2 Business Challenges

1.2.2.1 High Production Costs

1.2.2.2 Utilization of Alternate Materials

1.2.3 Business Strategies

1.2.4 Business Strategies

1.2.4.1 New Product Launch

1.2.5 Corporate Strategies

1.2.5.1 Partnerships

1.2.6 Business Opportunities

1.2.6.1 Opportunities for Satellite Manufacturers

1.2.6.2 Opportunities in the Launch Vehicle Manufacturing

1.2.6.3 Opportunities in Deep Space Exploration

### 2 ASIA-PACIFIC

2.1 Space Carbon Fiber Composite Market (by Region)

2.2 Asia-Pacific

2.2.1 Markets

- 2.2.1.1 Key Space Carbon Fiber Composite Players in Asia-Pacific
- 2.2.1.2 Business Drivers
- 2.2.1.3 Business Challenges
- 2.2.2 Application
  - 2.2.2.1 Asia-Pacific Space Carbon Fiber Composite Market (by Application)
- 2.2.3 Asia-Pacific (by Country)
  - 2.2.3.1 India
    - 2.2.3.1.1 Market
      - 2.2.3.1.1.1 Key Space Carbon Fiber Composite Players in India
    - 2.2.3.1.2 Application
      - 2.2.3.1.2.1 India Space Carbon Fiber Composite Market (by Application)
  - 2.2.3.2 Japan
    - 2.2.3.2.1 Market
      - 2.2.3.2.1.1 Key Space Carbon Fiber Composite Players in Japan
    - 2.2.3.2.2 Application
      - 2.2.3.2.2.1 Japan Space Carbon Fiber Composite Market (by Application)
  - 2.2.3.3 Rest-of-Asia-Pacific
    - 2.2.3.3.1 Application
      - 2.2.3.3.1.1 Rest-of-Asia-Pacific Space Carbon Fiber Composite Market (by Application)

### **3 MARKETS – COMPETITIVE BENCHMARKING & COMPANY PROFILES**

- 3.1 Market Share Analysis
- 3.2 Composite Companies
  - 3.2.1 CST Composites
    - 3.2.1.1 Company Overview
      - 3.2.1.1.1 Role of CST Composites in the Global Space Carbon Fiber Composite Market
      - 3.2.1.1.2 Customers
      - 3.2.1.1.3 Product Portfolio
    - 3.2.1.2 Analyst View
  - 3.2.2 Teijin Limited
    - 3.2.2.1 Company Overview
      - 3.2.2.1.1 Role of Teijin Limited in the Global Space Carbon Fiber Composite Market
      - 3.2.2.1.2 Product Portfolio
    - 3.2.2.2 Corporate Strategies
      - 3.2.2.2.1 Acquisition
    - 3.2.2.3 Analyst View
