Teleradiology is the transmission of radiology images from one place to another for rapid emergency services to hospitals and several diagnostic centers. Teleradiology reduces the workload created due to large number of radiological scans AS compared to the number of radiologist present. The teleradiology also allows second opinion from experts. The technological advancements in the field of telemedicine are expected to cause a paradigm shift in the global teleradiology market.

Advancements in healthcare IT technologies, computing power, faster networks, and cheaper storage have revolutionized medical imaging over the recent past, thus allowing doctors to manage images, analyze, and interpret more easily and flexibly than in the last decade. Computerized medical imaging analysis is one such advancement that have been the central focus in medical imaging in last few years. Medical image analysis and interpretation has become a vital technology in high-tech applications in diagnostics and a ubiquitous part of modern medical imaging systems and the related processes of clinical diagnosis and intervention. Recent advances in machine learning, especially with regard to deep learning, are helping to identify, classify, and quantify patterns in medical images. The major drawback overall lack of cost-effective digital image handling systems, thus slowing down the adoption of the teleradiology market. Rapid advancement in the field of telecommunication has been an accelerating factor in the growth of the global teleradiology market.

Telemedicine was developed to bring healthcare services closer to the patient in urban as well as rural areas. Telemedicine services are grouped based on stored images such as teleradiology, tele histopathology, and tele dermatology, among others. Telemedicine services are available for most of the specialties. Remote consulting offers more options to patients and allow continued care at home where patient and physician play an active role in managing diseases. This service also facilitates shorter hospital stay, second line support for various chronic diseases and also solves the problems occurring due to shortage of physicians at remote areas

The purpose of this study is to gain a holistic view of the global teleradiology market in terms of various influencing factors such as recent trends, regulatory requirements, and technological advancements of the market. The scope of this report constitutes a detailed study of the teleradiology services associated with the global teleradiology service market across different regions. The market has been segmented into 'technology type,' 'imaging modality,' 'application,' 'distribution channel,' and 'regions.' The teleradiology services market (by technology) is segmented into Web-based Teleradiology Services and Cloud-based Teleradiology Services. On the basis of imaging modality, the market is segmented as Computed Tomography, Magnetic Resonance Imaging, Nuclear Imaging (PET/CT), Ultrasound Systems, Mammography, X- Ray, and Others. Based on application, the market is segmented as Radiology Information System (RIS), Picture Archiving and Communication System (PACS), Integrated (RIS and PACS), and Others. The end user segment contains Hospitals, Diagnostic Imaging Centers, ASCs, and others.

The report presents the reader with an opportunity to unlock comprehensive insights with respect to the market and helps in forming well-informed strategic decisions. The research uncovers some of the substantial parameters that must be taken into consideration before entering the market.

This research report aims at answering various aspects of the global teleradiology services market with the help of the key factors driving the market, restraints, and challenges that can inhibit the overall market growth and the current growth opportunities that are going to shape the future trajectory of the market expansion. The report includes an in-depth examination of the key players and recent developments taking place in this market. Moreover, the report includes chapters on market dynamics (market drivers, opportunities, and challenges) and industry analysis as well.

The research study highlights the factors governing the industry attractiveness with Porter's Five Forces for a comprehensive understanding of the global teleradiology

services market. Moreover, the study includes detailed product mapping with further sub-segmentation of various countries, and in each sub-segment, the key market trends, list of the key companies, and the key strategies and developments have also been discussed.

The answers to the following key questions can be derived from this report:

What are the major market drivers, challenges, and opportunities in the global teleradiology services market?

What are the underlying structures resulting in the emerging trends within the teleradiology services industry?

What was the market value of the leading segments and sub-segments of the global teleradiology services market in 2017?

How will each segment of the global teleradiology services market grow during the forecast period, and what will be the revenue generated by each of the segments by the end of 2026?

What are the influencing factors that may affect the market share of the key players?

How will the industry evolve during the forecast period 2018-2026?

What are the key developmental strategies which are implemented by the major players in order to sustain in the competitive market?

Who are the leading players with significant offerings to the teleradiology services market? What is the current market dominance for each of these leading players?

What would be the compound annual growth rate witnessed by the leading players in the market during the forecast period 2018-2026?

What are the key imaging modalities service revenue in the global teleradiology services market? What are the major benefits of each imaging modality?

How has the market been segmented on the basis of technology? Which

technology is dominating the global teleradiology services market, and what is the reason behind its dominance?

How has the market been segmented on the basis of application? Which technology is dominating the global teleradiology services market, and what is the reason behind its dominance?

How has the market been segmented on the basis of end user? Which end user is currently dominating the global teleradiology services market, and what is the reason behind its dominance?

Who are the key service providers in the teleradiology services market, and what is their growth potential?

What are the key regulatory implications in developed and developing regions for teleradiology services?

What is the growth potential of teleradiology services in each region, including North America, Europe, Asia-Pacific, Latin America, and MEA?

Which teleradiology services product type is having the most promising growth and in which region?

Which teleradiology services end user is having the most promising growth and in which region?

The key players who have been contributing significantly to the teleradiology services company market includes RadNet, Inc., Envision Healthcare Corporation, MEDNAX Inc., Siemens Healthineers, Everlight Radiology Pty Ltd., 4ways Healthcare Limited, Global Diagnostics, Vision Radiology, Vital Radiology Services, USARAD Holdings, Inc., Argus Radiology, Foundation Radiology, Inc., ONRAD, Inc., and Teleradiology Solutions, among others.

## Contents

### EXECUTIVE SUMMARY

### 1 MARKET OVERVIEW

- 1.1 Potential Telemedicine Uses
- 1.2 Specialties in Telemedicine
- 1.3 What is Telemedicine?
- 1.4 Telehealth ACT
- 1.5 Framework for the Implementation of a Telemedicine Service
- 1.6 Telemedicine: Value Proposition

### 2 MARKET DYNAMICS

- 2.1 Market Drivers
  - 2.1.1 Better Management of Chronic Diseases
  - 2.1.2 Imaging the World Remotely
  - 2.1.3 Rising Incidence of Chronic Disease
  - 2.1.4 Growing Geriatric Population
  - 2.1.5 Government Initiatives
- 2.2 Market Restrains
  - 2.2.1 High Cost of Imaging Modalities/Software
  - 2.2.2 Shortage of skilled radiologist in emerging countries
  - 2.2.3 Reimbursement Issues
- 2.3 Market Opportunity
  - 2.3.1 Impact of Cloud-Based Solutions
  - 2.3.2 Radiology Outsourcing: The Next Big Thing?
  - 2.3.3 Artificial Intelligence in Medical Imaging Software

### 3 COMPETITIVE INSIGHTS

- 3.1 Key Strategies and Developments
  - 3.1.1 Product Launches and Business Unit Expansion
  - 3.1.2 Joint Ventures, Partnerships, and Collaborations
  - 3.1.3 Mergers and Acquisitions
- 3.2 Market Attractiveness (by Imaging Modality)
- 3.3 Base Point Share (BPS) (by Region)
- 3.4 Industry Attractiveness

- 3.4.1 Bargaining Power of Suppliers
- 3.4.2 Bargaining Power of Buyers
- 3.4.3 Threat of Substitute Products
- 3.4.4 Threat of New Entrants
- 3.4.5 Intensity of Competitive Rivalry

## **4 INDUSTRY INSIGHTS**

- 4.1 Medicare Telehealth Services
- 4.2 Consortiums, Associations and Regulatory Bodies

## **5 GLOBAL TELERADIOLOGY SERVICES MARKET (BY TECHNOLOGY)**

- 5.1 Cloud-based Services
- 5.2 Web-based Services

## **6 GLOBAL TELERADIOLOGY SERVICES MARKET (BY IMAGING MODALITY)**

- 6.1 Computed Tomography
- 6.2 Magnetic Resonance Imaging
- 6.3 Nuclear Imaging (PET/CT)
- 6.4 Ultrasound Systems
- 6.5 Mammography
- 6.6 X-Ray
- 6.7 Others

## **7 GLOBAL TELERADIOLOGY SERVICES MARKET (BY APPLICATION)**

- 7.1 Radiology Information System (RIS)
- 7.2 Picture Archiving And Communication System (PACS)
- 7.3 Integrated (RIS and PACS)
- 7.4 Others

## **8 GLOBAL TELERADIOLOGY SERVICES MARKET (BY END USER)**

- 8.1 Hospitals
- 8.2 Ambulatory Surgical Centers
- 8.3 Diagnostic Imaging Centers
- 8.4 Others

## **9 GLOBAL TELERADIOLOGY SERVICES MARKET (BY REGION)**

### 9.1 North America

9.1.1 The U.S.

9.1.2 Canada

### 9.2 Europe

9.2.1 Germany

9.2.2 France

9.2.3 The U.K.

9.2.4 Italy

9.2.5 Spain

9.2.6 Rest-of-Europe

### 9.3 Asia-Pacific

9.3.1 Australia

9.3.2 China

9.3.3 India

9.3.4 Japan

9.3.5 Rest-of-Asia-Pacific

### 9.4 Latin America

9.4.1 Brazil

9.4.2 Mexico

9.4.3 Rest-of-Latin America

### 9.5 Middle East and Africa (MEA)

## **10 COMPANY PROFILES**

### 10.1 Overview

#### 10.2 4ways Healthcare Limited

10.2.1 Company Overview

10.2.2 Role of 4ways Healthcare Limited in the Global Teleradiology Services Market

10.2.3 SWOT Analysis

#### 10.3 Alta Vista TeleRadiology

10.3.1 Company Overview

10.3.2 Role of Alta Vista TeleRadiology in the Global Teleradiology Services Market

10.3.3 SWOT Analysis

#### 10.4 Argus Radiology

10.4.1 Company Overview

10.4.2 Role of Argus Radiology in the Global Teleradiology Services Market

- 10.4.3 SWOT Analysis
- 10.5 Envision Healthcare Corporation
  - 10.5.1 Company Overview
  - 10.5.2 Role of Envision Healthcare Corporation in the Global Teleradiology Services Market
  - 10.5.3 Financials
  - 10.5.4 SWOT Analysis
- 10.6 Everlight Radiology Pty Ltd.
  - 10.6.1 Company Overview
  - 10.6.2 Role of Everlight Radiology Pty Ltd. in the Global Teleradiology Services Market
  - 10.6.3 SWOT Analysis
- 10.7 Foundation Radiology, Inc.
  - 10.7.1 Company Overview
  - 10.7.2 Role of Foundation Radiology, Inc. in the Global Teleradiology Services Market
  - 10.7.3 SWOT Analysis
- 10.8 Global Diagnostics
  - 10.8.1 Company Overview
  - 10.8.2 Role of Global Diagnostics in the Global Teleradiology Services Market
  - 10.8.3 SWOT Analysis
- 10.9 MEDNAX Inc.
  - 10.9.1 Company Overview
  - 10.9.2 Role of MEDNAX Inc. in the Global Teleradiology Services Market
  - 10.9.3 Financials
  - 10.9.4 SWOT Analysis
- 10.10 ONRAD, Inc.
  - 10.10.1 Company Overview
  - 10.10.2 Role of ONRAD, Inc. in the Global Teleradiology Services Market
  - 10.10.3 SWOT Analysis
- 10.11 RadNet, Inc.
  - 10.11.1 Company Overview
  - 10.11.2 Role of RadNet, Inc. in the Global Teleradiology Services Market
  - 10.11.3 Financials
  - 10.11.4 SWOT Analysis
- 10.12 Siemens Healthineers
  - 10.12.1 Company Overview
  - 10.12.2 Role of Siemens Healthineers in the Global Teleradiology Services Market
  - 10.12.3 Financials
    - 10.12.3.1 Key Insights on the Financial Health of the Company
  - 10.12.4 SWOT Analysis

## 10.13 Teleradiology Solutions

### 10.13.1 Company Overview

### 10.13.2 Role of Teleradiology Solutions in the Global Teleradiology Services Market

### 10.13.3 SWOT Analysis

## 10.14 USARAD Holdings, Inc.

### 10.14.1 Company Overview

### 10.14.2 Role of USARAD Holdings, Inc. in the Global Teleradiology Services Market

### 10.14.3 SWOT Analysis

## 10.15 Vision Radiology

### 10.15.1 Company Overview

### 10.15.2 Role of Vision Radiology in the Global Teleradiology Services Market

### 10.15.3 SWOT Analysis

## 10.16 Vital Radiology Services

### 10.16.1 Company Overview

### 10.16.2 Role of Vital Radiology Services in the Global Teleradiology Services Market

### 10.16.3 SWOT Analysis

## **11 RESEARCH SCOPE AND METHODOLOGY**

### 11.1 Report Scope

### 11.2 Teleradiology Services Market: Research Methodology

## List Of Tables

### LIST OF TABLES

Table 1: Global Teleradiology Services Market, 2017 and 2026

Table 1.1: Teleradiology Act

Table 1.2: Actions Taken By WHO Regarding Telemedicine

Table 4.1: HCPCS/ CPT Codes for Various Medicare Telehealth Services

Table 4.2: List of Association/Consortium/Regulatory Bodies Across the World

## List Of Figures
