The UAS traffic management (UTM) system market is in its developmental phase. Since 2014, NASA, along with UAS community partners, industry leaders, various governments, and academic researchers, are actively developing and testing the unmanned traffic management research platform. Many successful tests and demonstrations for communication prototypes, beyond visual line of sight (BVLOS) operations, mission planning, and longer range application prove that a commercialized market for unmanned traffic management is gradually emerging. Moreover, the need for UTM services has also resulted in the development of regulatory framework for the deployment drones around the world. This regulatory framework is expected to include operational limits, key responsibilities of the stakeholders, aircraft requirements, etc. Governments and regulatory authorities have made some exemptions in 2018 with regard to the operation of commercial UAVs, which has been a driving factor in the UAV market growth. The U.S-based Federal Aviation Administration (FAA) and Germany-based European Aviation Safety Agency (EASA) are two prominent regulatory authorities that are actively working toward creating more opportunities for the commercial drone business.

Globally, the market for UTM is rapidly evolving with regard to UAS Service Suppliers (USS), which is one of the major components of the UTM ecosystem. UAS Service Suppliers (USS) have a viable business opportunity, as most of them are emerging start-ups trying to enter the UTM industry with their own UTM systems. Therefore, they are

expected to invest substantial amount in order to set up a robust traffic management system that can safely incorporate drones in the airspace. By analysis, if becomes fully operational, the global UAS traffic management systems market has the potential to generate over \$2.83 billion of revenue by 2030. The following points provide a concrete description of the report content and the topics covered in the report:

This report identifies the global UAS traffic management system market for different stakeholders and regions.

The study also presents a detailed examination of the UTM systems market along with the market drivers, restraints, growth opportunities, and challenges.

The study provides details of various technologies enabling the UTM system.

The report also provides segmentation of various systems of UTM, and product mapping with key companies.

A detailed competitive analysis, which focuses on the key market developments and strategies followed by the key players in the market, has been included in this report.

The study provides a detailed view of funding scenario and regulatory framework of UTM systems.

The study provides a detailed overview of business opportunities for various key stakeholders in the UAS traffic management systems market.

The UAS traffic management systems market has been analyzed for all the regions, namely North America, Europe, Asia-Pacific, and Rest-of-the-World with further analysis of the key developments with respect to several major countries.

The study provides detailed analysis of various key players in the UAS traffic management system market namely AirMap, Airware, Altitude Angel, Analytical Graphic, Inc., DeDrone, DJI Innovations, SRC Inc., Kittyhawk, PrecisionHawk, SenseFly, Skyward, Unifly, AiRXOS, Aeronyde Corporation, Amazon, X (Project Wing) in the company profiles section. This section covers business financials, company snapshots, key products and services, major developments, future programs (if any), and the individual SWOT analysis.

Contents

EXECUTIVE SUMMARY

1 MARKET DYNAMICS

1.1 Market Drivers

1.1.1 Increasing Proliferation of Drones

1.1.2 Emerging Regulations on UTM

1.2 Market Restraints

1.2.1 Growing Security, Safety and Privacy Concerns

1.2.2 Vulnerability to Cyber Attacks

1.3 Market Opportunities

1.3.1 Emerging Drone Applications with the Implementation of UTM

1.3.2 Potential Growth Opportunities for Key Stakeholders

2 COMPETITIVE INSIGHTS

2.1 Competitive Landscape

2.2 Key Strategies and Developments

2.2.1 Partnerships, Collaborations and Joint Ventures

2.2.2 Product Launches

2.2.3 Other Developments

3 OVERVIEW OF UAS TRAFFIC MANAGEMENT SYSTEM (UTM)

3.1 UAS Traffic Management System Architecture

3.2 Comparison between UTM and ATM

3.3 Segmentation of UTM by System

3.3.1 Technical Infrastructure Systems

3.3.1.1 Communication Infrastructure

3.3.1.2 Navigation Infrastructure

3.3.1.3 Surveillance Infrastructure

3.3.1.4 Spatial Infrastructure

3.3.2 Human Interface Components

3.3.2.1 Unmanned Aircraft Systems (UAS)

3.3.2.2 UAS Registration System

3.3.2.3 UAS Traffic Management System

3.4 Segmentation of UTM by Type

- 3.4.1 Portable Unmanned Traffic Management System
- 3.4.2 Persistent Unmanned Traffic Management System
- 3.5 UTM Operational Business Models
- 3.6 Ongoing Progress in UTM
 - 3.6.1 Global UTM Deployment Forecast, 2018-2019

4 INDUSTRY ANALYSIS

- 4.1 Ongoing and Upcoming UTM Systems
- 4.2 Regulatory Framework on UTM
- 4.3 Funding Scenario in UTM Space

5 KEY TECHNOLOGIES ENABLING UTM

- 5.1 Drone Tracking and Remote Identification
- 5.2 Communication Technology
- 5.3 Detect and Avoid Systems
- 5.4 Emerging Trends
 - 5.4.1 LAANC for Airspace Data Sharing
 - 5.4.2 Blockchain Technology to Improve Data Security

6 GLOBAL UAS TRAFFIC MANAGEMENT SYSTEM MARKET, 2020-2030

- 6.1 Assumptions and Limitations
- 6.2 Market Overview

7 BUSINESS OPPORTUNITIES FOR KEY STAKEHOLDERS

- 7.1 Overview
- 7.2 UAS Service Suppliers (USS)
- 7.3 Drone Operators
- 7.4 Communication Service Providers
- 7.5 Data Service Providers
- 7.6 Law Enforcement
- 7.7 Air Navigation Service Provider

8 GLOBAL UAS TRAFFIC MANAGEMENT SYSTEM MARKET BY REGION

- 8.1 North America

- 8.2 Europe
- 8.3 Asia-Pacific
- 8.4 Rest-of-the-World

9 UTM: A CORE ENABLER FOR URBAN AIR MOBILITY (UAM)

- 9.1 Introduction
- 9.2 Current Developments in UAM
- 9.3 Use Cases of Urban Air Mobility
- 9.4 Futuristic Scenario of UAM
- 9.5 In-Progress List of Aircraft Manufacturers (UAM)
- 9.6 UTM as a Key Enabler

10 COMPANY PROFILES

- 10.1 AirMap
 - 10.1.1 Company Overview
 - 10.1.2 Role of AirMap in UAS Traffic Management System Market
 - 10.1.3 SWOT Analysis
- 10.2 Airware
 - 10.2.1 Company Overview
 - 10.2.2 Role of Airware in UAS Traffic Management System Market
 - 10.2.3 SWOT Analysis
- 10.3 AiRXOS
 - 10.3.1 Company Overview
 - 10.3.2 Role of AiRXOS in Global Unmanned Traffic Management System Market
 - 10.3.3 SWOT Analysis
- 10.4 Airbus
 - 10.4.1 Company Overview
 - 10.4.2 Role of Airbus Group SE in Global Unmanned Traffic Management System Market
 - 10.4.3 Financials
 - 10.4.3.1 Overall Financials
 - 10.4.3.2 Financial Summary
 - 10.4.4 SWOT Analysis
- 10.5 Altitude Angel
 - 10.5.1 Company Overview
 - 10.5.2 Role of Altitude Angel in UAS Traffic Management System Market
 - 10.5.3 SWOT Analysis

10.6 Analytics Graphics, Inc.

10.6.1 Company Overview

10.6.2 Role of Analytics Graphics in UAS Traffic Management System Market

10.6.3 SWOT Analysis

10.7 Dedrone

10.7.1 Company Overview

10.7.2 Role of Dedrone in UAS Traffic Management System Market

10.7.3 SWOT Analysis

10.8 DJI Innovations

10.8.1 Company Overview

10.8.2 Role of DJI Innovations in UAS Traffic Management System Market

10.8.3 SWOT Analysis

10.9 SRC Inc.

10.9.1 Company Overview

10.9.2 Role of SRC Inc. in UAS Traffic Management System Market

10.9.3 SWOT Analysis

10.10 Kitty Hawk

10.10.1 Company Overview

10.10.2 Role of Kitty Hawk in UAS Traffic Management System Market

10.10.3 SWOT Analysis

10.11 Microdrones

10.11.1 Company Overview

10.11.2 Role of Microdrones in UAS Traffic Management System Market

10.11.3 SWOT Analysis

10.12 PrecisionHawk

10.12.1 Company Overview

10.12.2 Role of PrecisionHawk in UAS Traffic Management System Market

10.12.3 SWOT Analysis

10.13 senseFly

10.13.1 Company Overview

10.13.2 Role of senseFly in UAS Traffic Management System Market

10.13.3 SWOT Analysis

10.14 Skyward

10.14.1 Company Overview

10.14.2 Role of Skyward in UAS Traffic Management System Market

10.14.3 SWOT Analysis

10.15 Thales Group

10.15.1 Company Overview

10.15.2 Role of Thales Group in Global Unmanned Traffic Management System

Market

10.15.3 Financials

10.15.3.1 Overall Financials

10.15.3.2 Financial Summary

10.15.4 SWOT Analysis

10.16 The Boeing Company

10.16.1 Company Overview

10.16.2 Role of The Boeing Company in Global Unmanned Traffic Management

System Market

10.16.3 Financials

10.16.3.1 Overall Financials

10.16.3.2 Financial Summary

10.16.4 SWOT Analysis

10.17 Unifly

10.17.1 Company Overview

10.17.2 Role of Unifly in UAS Traffic Management System Market

10.17.3 SWOT Analysis

10.18 vHive

10.18.1 Company Overview

10.18.2 Role of vHive in UAS Traffic Management System Market

10.18.3 SWOT Analysis

10.19 Other Key Players

10.19.1 Exponent Technology Services

10.19.2 Indra

10.19.3 Intel

10.19.4 Leonardo

10.19.5 NTT Data

10.19.6 RakutenAirMap Inc.

10.19.7 Terra Drone

10.19.8 X Development LLC

10.19.9 List of Emerging Companies

11 RESEARCH SCOPE AND BIS METHODOLOGY

11.1 Scope of the Report

11.2 Global UAS Traffic Management System Market Research Methodology
