This report will be delivered in 7-10 working days. Introduction to Radiopharmaceuticals in PET Imaging Market

The use of Positron Emission Tomography (PET) in medical imaging has become a pivotal method for diagnosing and managing various diseases, particularly cancer, neurological disorders, and cardiovascular conditions. Central to the success of PET imaging are radiopharmaceuticals—radioactive compounds that are used as tracers to visualize biological processes in vivo. With advancements in both PET technology and the development of new radiopharmaceuticals, the market for these products is experiencing rapid growth.

The global radiopharmaceuticals market in PET imaging is driven by an increasing demand for early detection of diseases, particularly cancers, and neurological conditions. Radiopharmaceuticals help detect tumors, monitor treatment efficacy, and assist in assessing the metabolic functions of organs. With continuous technological advancements, increasing healthcare investments, and expanding applications in precision medicine, the PET imaging market is positioned for significant growth.

Cancer remains one of the leading causes of death worldwide. PET imaging using radiopharmaceuticals, especially 18F-FDG (fluorodeoxyglucose), has proven effective in detecting cancers at early stages, monitoring therapy progress, and assessing

recurrence. As the prevalence of cancer rises globally, so does the demand for advanced imaging solutions, boosting the radiopharmaceutical market.

**Advances in Neurological Imaging:** Radiopharmaceuticals are essential for visualizing brain activity and detecting neurological diseases such as Alzheimer's disease, Parkinson's disease, and epilepsy. With the aging population and increasing awareness of mental health conditions, the demand for neurological PET imaging is rising, and demand for imaging in pets is propelling market growth.

**Technological Advancements:** Innovations in PET technology, such as the development of new, more specific radiopharmaceuticals and improvements in PET scanners, are improving the quality and precision of diagnostic imaging. This drives the adoption of PET scans in clinical settings and increases the demand for radiopharmaceuticals.

**Expanding Applications of PET Imaging:** PET imaging is not only valuable for oncology and neurology but is also gaining traction in cardiology, immunology, and other therapeutic areas. As the potential applications of PET imaging grow, there is a corresponding increase in the demand for radiopharmaceuticals.

The production of radiopharmaceuticals requires specialized facilities and equipment, making them expensive to produce and distribute. Additionally, PET scanners are costly, limiting accessibility in lower-resource regions.

**Short Shelf Life of Radiopharmaceuticals:** Many radiopharmaceuticals have a short half-life, requiring efficient and timely distribution, adding logistical challenges for healthcare providers. Regulatory processes for approving new radiopharmaceuticals are complex and time-consuming, which can delay the introduction of innovative products to the market.

**Competitive Landscape:** Key players in the radiopharmaceuticals market include:

GE Healthcare

Siemens Healthineers

Philips Healthcare

Novartis (Advanced Accelerator Applications)

Cardinal Health

Bayer HealthCare

These companies are focusing on expanding their portfolios of radiopharmaceuticals, improving production efficiency, and exploring new indications for PET imaging to maintain a competitive edge.

The global radiopharmaceuticals market for PET imaging is poised for continued growth, driven by the increasing demand for early diagnosis and precision treatments in oncology, neurology, and cardiology. While challenges remain, such as the high cost of production and regulatory barriers, advancements in radiopharmaceutical development and increased healthcare access are expected to fuel market expansion. As the applications of PET imaging continue to evolve, so too will the opportunities for innovation and investment in the radiopharmaceuticals market.

Market Segmentation:

Segmentation 1: by RadioisotopeType

F-18 FDG

F-18 FIORBETAPIR

F-18 FIOBETABEN

F-18 Sodium Fluoride

Others

Segmentation 2: by Application

Oncology

Lung Cancer

Breast Cancer

Others

Cardiology

Neurology

Dementia

Parkinson's Disease

Others

Others

### Segmentation 3: by End User

Hospitals and Clinics

Medical Imaging Centers

Other End Users

### Segmentation 4: by Region

North America

Europe

Asia-Pacific

Latin America

Middle East and Africa

North America accounted the largest share in the Global Radiopharmaceuticals in PET

*Radiopharmaceuticals in PET Imaging Market - A Global and Regional Analysis: Focus on Radioisotope Type, Appli...*

## Imaging Market

The largest market, driven by high healthcare spending, advanced medical infrastructure, and increasing cancer and neurological disease incidences. The U.S. is a major player in developing and manufacturing radiopharmaceuticals. The U.S. has the highest healthcare expenditure in the world, with a significant portion allocated to advanced diagnostic technologies like PET imaging. As healthcare spending continues to grow, so does the demand for cutting-edge imaging technologies, including those involving radiopharmaceuticals.

Further, North America boasts state-of-the-art healthcare facilities and the widespread availability of PET scanners and radiopharmaceuticals. Many hospitals and diagnostic centers are equipped with the latest imaging technologies, enabling them to take full advantage of radiopharmaceuticals for early disease detection and treatment monitoring.

The prevalence of cancer and neurological disorders like Alzheimer's, Parkinson's, and other dementias is rising in North America. PET imaging is a crucial tool in oncology and neurology, particularly for early detection, treatment planning, and ongoing monitoring of these conditions. With the aging population, this trend is expected to continue, driving demand for radiopharmaceuticals.

## Contents

Executive Summary  
Scope and Definition  
Market/Product Definition  
Key Questions Answered  
Analysis and Forecast Note

### **1. GLOBAL RADIOPHARMACEUTICALS IN PET IMAGING MARKET: INDUSTRY OUTLOOK**

1.1 Market Trends  
1.2 Regulatory Framework  
1.3 Reimbursement Scenario  
1.4 Pipeline Analysis  
1.5 Radiopharmaceuticals Used for PET Imaging  
1.6 Key Players of PET Imaging  
1.7 Patent Landscape  
1.8 Market Dynamics  
    1.8.1 Market Drivers  
    1.8.2 Market Restraints  
    1.8.3 Market Opportunities

### **2. GLOBAL RADIOPHARMACEUTICALS IN PET IMAGING MARKET, BY RADIOISOTOPE TYPE**

2.1 F-18 FDG  
    2.1.1 Key Companies  
    2.1.2 Market Sizing and Forecast  
2.2 F-18 Florbetapir  
    2.2.1 Key Companies  
    2.2.2 Market Sizing and Forecast  
2.3 F-18 Florbetaben  
    2.3.1 Key Companies  
    2.3.2 Market Sizing and Forecast  
2.4 F-18 Sodium Fluoride  
    2.4.1 Key Companies  
    2.4.2 Market Sizing and Forecast  
2.5 Others

### **3. GLOBAL RADIOPHARMACEUTICALS IN PET IMAGING MARKET, BY APPLICATION**

#### **3.1 Oncology**

##### **3.1.1 Lung Cancer**

##### **3.1.2 Breast Cancer**

##### **3.1.3 Other Cancer**

#### **3.2 Cardiology**

#### **3.3 Neurology**

##### **3.3.1 Dementia**

##### **3.3.2 Parkinson's Disease**

##### **3.3.3 Others**

#### **3.4 Others**

### **4. GLOBAL RADIOPHARMACEUTICALS IN PET IMAGING MARKET, BY END-USER**

#### **4.1 Hospitals and Clinics**

#### **4.2 Medical Imaging Centers**

#### **4.3 Others**

### **5. GLOBAL RADIOPHARMACEUTICALS IN PET IMAGING MARKET, BY REGION**

#### **5.1 North America Radiopharmaceuticals in PET Imaging Market**

##### **5.1.1 Market Dynamics**

##### **5.1.2 Market Sizing and Forecast**

###### **5.1.2.1 North America Radiopharmaceuticals in PET Imaging Market, by End User**

###### **5.1.2.2 North America Radiopharmaceuticals in PET Imaging Market, by Country**

###### **5.1.2.2.1 U.S.**

###### **5.1.2.2.2 Canada**

#### **5.2 Europe Radiopharmaceuticals in PET Imaging Market**

##### **5.2.1 Market Dynamics**

##### **5.2.2 Market Sizing and Forecast**

###### **5.2.2.1 Europe Radiopharmaceuticals in PET Imaging Market, by End User**

###### **5.2.2.2 Europe Radiopharmaceuticals in PET Imaging Market, by Country**

###### **5.2.2.2.1 Germany**

###### **5.2.2.2.2 France**

###### **5.2.2.2.3 U.K.**

5.2.2.2.4 Italy

5.2.2.2.5 Spain

5.2.2.2.6 Rest-of-Europe

### 5.3 Asia-Pacific Radiopharmaceuticals in PET Imaging Market

5.3.1 Market Dynamics

5.3.2 Market Sizing and Forecast

5.3.2.1 Asia Pacific Radiopharmaceuticals in PET Imaging Market, by End User

5.3.2.2 Asia-Pacific Radiopharmaceuticals in PET Imaging Market, by Country

5.3.2.2.1 Japan

5.3.2.2.2 China

5.3.2.2.3 India

5.3.2.2.4 South Korea

5.3.2.2.5 Rest of Asia-Pacific

### 5.4 Latin America Radiopharmaceuticals in PET Imaging Market

5.4.1 Market Dynamics

5.4.2 Market Sizing and Forecast

5.4.2.1 Latin America Radiopharmaceuticals in PET Imaging Market, by End User

5.4.2.2 Latin America Radiopharmaceuticals in PET Imaging Market, by Country

5.4.2.2.1 Brazil

5.4.2.2.2 Mexico

5.4.2.2.3 Rest-of-Latin America

### 5.5 Middle East and Africa Radiopharmaceuticals in PET Imaging Market

5.5.1 Market Dynamics

5.5.2 Market Sizing and Forecast

5.5.2.1 Middle East and Africa Radiopharmaceuticals in PET Imaging Market, by End User

5.5.2.2 Middle East and Africa Radiopharmaceuticals in PET Imaging Market, by Country

5.5.2.2.1 K.S.A

5.5.2.2.2 Rest-of-Middle East and Africa

## 6. COMPETITIVE LANDSCAPE AND COMPANY PROFILING

### 6.1 Competitive Landscape

6.1.1 Mergers and Acquisitions

6.1.2 Synergistic Activities

6.1.3 Product Launch and Approval Activities

6.1.4 Expansion, Funding, and Other Activities

### 6.2 Company Profiles

- 6.2.1 Siemens Healthineers AG
  - 6.2.1.1 Company Overview
  - 6.2.1.2 Product Offering
  - 6.2.1.3 Key Competitors of the Company
  - 6.2.1.4 Key Customers of the Company
  - 6.2.1.5 Analyst Perspective
- 6.2.2 GE Healthcare
  - 6.2.2.1 Company Overview
  - 6.2.2.2 Product Offering
  - 6.2.2.3 Key Competitors of the Company
  - 6.2.2.4 Key Customers of the Company
  - 6.2.2.5 Analyst Perspective
- 6.2.3 Eli Lilly and Company
  - 6.2.3.1 Company Overview
  - 6.2.3.2 Product Offering
  - 6.2.3.3 Key Competitors of the Company
  - 6.2.3.4 Key Customers of the Company
  - 6.2.3.5 Analyst Perspective
- 6.2.4 Telix Pharmaceuticals
  - 6.2.4.1 Company Overview
  - 6.2.4.2 Product Offering
  - 6.2.4.3 Key Competitors of the Company
  - 6.2.4.4 Key Customers of the Company
  - 6.2.4.5 Analyst Perspective
- 6.2.5 Bracco Imaging S.p.A.
  - 6.2.5.1 Company Overview
  - 6.2.5.2 Product Offering
  - 6.2.5.3 Key Competitors of the Company
  - 6.2.5.4 Key Customers of the Company
  - 6.2.5.5 Analyst Perspective
- 6.2.6 SOFIE Biosciences
  - 6.2.6.1 Company Overview
  - 6.2.6.2 Product Offering
  - 6.2.6.3 Key Competitors of the Company
  - 6.2.6.4 Key Customers of the Company
  - 6.2.6.5 Analyst Perspective
- 6.2.7 Lantheus Holdings, Inc.
  - 6.2.7.1 Company Overview
  - 6.2.7.2 Product Offering

- 6.2.7.3 Key Competitors of the Company
- 6.2.7.4 Key Customers of the Company
- 6.2.7.5 Analyst Perspective
- 6.2.8 Curium
  - 6.2.8.1 Company Overview
  - 6.2.8.2 Product Offering
  - 6.2.8.3 Key Competitors of the Company
  - 6.2.8.4 Key Customers of the Company
  - 6.2.8.5 Analyst Perspective
- 6.2.9 Advanced Accelerator Applications (Novartis)
  - 6.2.9.1 Company Overview
  - 6.2.9.2 Product Offering
  - 6.2.9.3 Key Competitors of the Company
  - 6.2.9.4 Key Customers of the Company
  - 6.2.9.5 Analyst Perspective
- 6.2.10 Other Companies

## **7. RESEARCH METHODOLOGY**

## I would like to order

Product name: Radiopharmaceuticals in PET Imaging Market - A Global and Regional Analysis: Focus on Radioisotope Type, Application, End User, and Country-Level Analysis - Analysis and Forecast, 2025-2035

Product link: <https://marketpublishers.com/r/R594E5E4D603EN.html>

Price: US\$ 4,900.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
