Global Biopsy guidance system Market is valued approximately at USD 0.92 billion in 2020 and is anticipated to grow with a healthy growth rate of more than 5.20 % over the forecast period 2021-2027. Biopsy Guidance System is used for the diagnosis of cancer and other chronic diseases in their initial stage. The Biopsy Guidance System market is being driven by growing cases of cancer globally, increase in the geriatric population, an increasing preference for non-invasive procedures, technological advancements, and increasing government initiatives.
