Abstracts

Global Flooring is valued approximately USD 342.7 billion in 2018 and is anticipated to grow with a healthy growth rate of more than 5.7% over the forecast period 2019-2026. Floor covering is a term used to describe any layer of finish material applied over a floor structure to provide permanent covering. The floor covering or flooring provides a smooth, clean, impervious, durable, colourful, hard and attractive surface. It is the cover which has to offer resistance to wear and tear due to human movement and movement of furniture, etc. Now a days, Flooring is very important part of home decor which enhance the growth of market. .However, increased emphasis on use of green and eco-friendly material, such as wood, also driven the market growth. Factors, such as new construction, renovation, and retrofitting activities for buildings as well as infrastructure influence the market growth, and are expected to drive the floor market over the forecast period of 2019-2026.

The regional analysis of global Flooring is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World. The Asia Pacific is the leading region across the world. Factors such as, rising population & urbanization, rapid industrialization, increase in disposable income, trending towards huge number of renovation & remodeling activities, witnessed to expand the growth of flooring market over the forecast period of 2019-2026.
