Abstracts

Global Acetoin Natural Market is valued approximately USD XX million in 2021 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2022-2028. The Acetoin Natural also known as acetyl methyl carbinol or 3-hydroxybutanone or acetyl methyl is a natural flavor ingredient with a buttery aroma. It is largely found in different grain and fruits such as corn, grapes, Cocoa, apples, bananas, Cheese as well as in Meat. It is utilized as additive across different sectors such as Food Ingredients & Beverage, Paints & Coatings, Adhesives, Cosmetics & Personal Care, and pharmaceutical among others. The rising flavor and fragrance market worldwide and growing Food and beverages sector coupled with surging preference toward convenience food products are factors that are accelerating the global market demand. For instance, according to Statista – In 2020, flavor and fragrance market in the United States was estimated at USD 1.93 billion, and the market is projected to grow to USD 2.3 billion by end of 2025. Furthermore, market players are coming up with innovative products to capitalize the increasing demand for Acetoin Natural. For instance, Ennolys launched a new aromatic ketone product named acetoin, also known as acetyl methyl carbinol or 3-hydroxy 2-butanone. This new product is made from sugar fermentation and is vegan, halal, kosher and palm oil free. It is intended to be used with many food products such as dairy, bakery, chocolate and savory products. Also, growing online food services industry in emerging economies

and rising pharmaceuticals and cosmetics industries are anticipated to act as a catalyzing factor for the market demand during the forecast period. However, lower Shelf Life of Acetoin natural and high cost associated with raw materials impede the growth of the market over the forecast period of 2022-2028.

The key regions considered for the global Acetoin Natural Market study include Asia Pacific, North America, Europe, Latin America, and the Rest of the World. North America is the leading region across the world in terms of market share owing to the growing trend of natural ingredient based products and increasing demand for plant based food products in the region. Whereas, Asia Pacific is anticipated to exhibit a significant growth rate over the forecast period 2022-2028. Factors such as growing paint and coating industry, increasing penetration of online food delivery services in the region, would create lucrative growth prospects for the global Acetoin Natural Market across the Asia Pacific region.
