Abstracts

Global Active Humidifier Device Market is valued approximately USD XX billion in 2020 and is anticipated to grow with a healthy growth rate of more than XX% over the forecast period 2021-2027. Active Humidifier acts as a medium through which the air passes in a heated water reservoir. Active humidifier are generally used in ventilators to make sure that the patient on the ventilator are supplied with the required amount of respiratory gas. There is a remarkable improvement in medical infrastructure and medical expenditure by government in different sectors such as hospitals, medical care centers, sleep care institutes etc. Thus, manufacturers of active humidifier are getting constant support from government in developing countries. Advance technologies have also expanded the market for active humidifiers. For instance, in March 2018, Nepronic announced the nomination of Techocontrol Sistemas S.A. de C.V., as a dealer for its products in Central and South Mexico including Mexico City. Industry players are also launching multifunctional products with air purification and humidification facilities to cater to growing market opportunities. However, the damage caused in the process of invasive ventilation to the nasal mucosa impedes the growth of the market over the forecast period of 2021-2027. Also, collaborations, agreements and partnerships used as key strategies by the leading dealers and development of better clinical treatment guidelines, standardize product usage, and shorten registration & licensing periods for Active Humidifier Device Market is likely to increase the market growth during the forecast period.

The regional analysis of global Active Humidifier Device Market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World. The North America is the leading region across the world in terms of market share owing to the demand for active humidifiers is increasing due to unprecedented outbreak of COVID-19 for survival. In 2021, the U.S. is estimated to account for over 94% value share in North America. Whereas Asia-Pacific is also anticipated to exhibit highest growth rate over the forecast period 2021-2027. China's active humidifier devices market is expected to account for over 49.5% of the market across East Asia and would create lucrative growth prospects for the Active Humidifier Device Market across Asia-Pacific region.
