Global Aerosol Paints Market is valued approximately at USD xxx Million in 2020 and is anticipated to grow with a healthy growth rate of more than 5.60% over the forecast period 2021-2027. Aerosol paints are available in a sealed and pressurized container, in which by pressing the valve the paint can be applied easily and evenly on the surface for aesthetics or protection of the surface. Growing affordable housing projects around the world are expected to push the demand for aerosol paints in coming years. For instance, in June 2021, Krylon Products Group launched a new series of aerosol craft sprays, Krylon Decor Selects. The paint can be applied on old furniture, keepsakes and other everyday objects. Furthermore, development of eco-friendly aerosol paints and growing use of electric vehicles in automobiles sector are expected to boost the market growth during forecast period. Such as, according to Statista, 8.5 million units of electric vehicles were in use in 2020 globally, which is estimated to reach 115 million by 2030. However, stringent government regulations regarding toxic solvents and lack of awareness in emerging economies are expected to hamper the growth in near future.

Among Asia Pacific, North America, Europe, Latin America, and Rest of the World, Asia Pacific is leading the world market in terms of revenue and is also expected to grow at the fastest pace during forecast period due to rising automotive, construction and electronic industry owing to rapid industrialization, especially in China and India.
