Abstracts

Global Aircraft Cabin Interiors Market is valued approximately USD 27 billion in 2018 and is anticipated to grow with a healthy growth rate of more than 5.85% over the forecast period 2019-2026. Aircraft cabin interiors include seating, in flight entertainment connectivity, cabin lighting, galley, lavatory, windows, windshield, storage bins and interior panels. Rising demand of aircraft due to the rise in air passenger traffic is fueling the aircraft cabin interior market. For instance, as per the International Civil Aviation Organization, the number of air passengers are estimated to grow 8.2 billion in 2037 as compared to 3.79 billion in 2017. This, rising number of air travels are attributed to the increasing number of new aircrafts orders thereby leading growth in the aircraft cabin interiors. Further, the increasing concern of airlines to enhance its customer experience by providing improved aesthetics of cabin interiors in new as well as existing aircraft fleets is also expected to contribute to market growth. Also, the rise in demand of premium economy seats and increasing popularity of travelling by air in emerging

economies are the few factors responsible for high CAGR of the market over the forecast period. Moreover, the additional features being provided by the airlines such as Wi-Fi connectivity and innovative interior lighting system and the influence of low cost airlines are the major factors likely to create lucrative growth opportunity to the market in the upcoming years. However, the cybersecurity issues related to air traffic control (ATC), high cost of installation and delayed aircraft deliveries are few factors anticipated to hinder the growth of global aircraft cabin interiors market during the forecast period.

The regional analysis of global Aircraft Cabin Interiors Market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World. North America is the leading/significant region across the world in terms of market share owing to the flourishing aviation industry in the region. Also, the presence of major aircraft production company like Boeing and Bombardier in US and Canada are responsible for high demand of the aircraft cabin interiors market in the region.
