Global Aircraft Curtains and Drapes Market is valued approximately at USD XX billion in 2018 and is anticipated to grow with a healthy growth rate of more than XX% over the forecast period 2019-2026. Aircraft Curtains and Drapes find extensive application in the aviation industry as they block light in general aviation aircraft, divide classes of service on commercial aircraft and create a privatespace for flight crew work area and rest areas. Aviation industry growth and the rise in number of air travel passengers worldwide is witnessed in the past two decades. According to a report published by Forbes, the number of air travel passengers grew from 1.467 billion in 1998 to 3.979 billion passengers in 2017. The rising number of air travel passengers is leading to the aviation industry growth hence, generating demand for new aircraft. Therefore, anincrease in the number of air travel passengers and a rise in demand for new aircraft is a factor contributing significantly to the aircraft curtains and drapes market growth. Further, increased procurement of new-generation aircraft is a factor driving the aircraft curtain and drapes market.The increased demand of comfort and luxurious features in the aircraft from passengers and rising efforts from aircraft manufactures to provide best in class features is posing a lucrative growth opportunity for the aircraft curtains and drapes market growth. Also, cutthroat competition between major aviation service providers to allure customers is a factor drivingmarket growth. However, quick delivery times and budget constraints are the factors anticipated to negatively affect the quality of parts and components of aircraft and thus, hindering the market growth.
