The global Aircraft Galley Market is valued at approximately USD XX billion in 2021 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2022-2029. Aircraft Galley is a piece of vital equipment inside the cabin of an airplane. It is a compartment of an aircraft where food is cooked and prepared. It has a direct or indirect impact on a traveler's flight experience. The Aircraft Galley market is expanding because of factors such as the rising demand for air passenger traffic and the growing number of onboard passengers is driving the growth for the market.

According to the Airports Council International in 2022, the passenger volumes in 2021 reached around 9.8 billion passengers. Also, in the first two quarters of the year 2022, the volume of global passenger volume was 1.3 billion and 1.7 billion which are 62.0% and 75.2 % of 2019 levels Whereas preference for new generation of aircraft and modernization across the aviation industry create lucrative opportunities for the market. However, technological and design complexity hampers the market growth throughout the forecast period of 2022-2029.

The key regions considered for the Global Aircraft Galley Market study include Asia Pacific, North America, Europe, Latin America, and the Rest of the World. Asia Pacific dominated the market in terms of revenue, owing to the increasing air passenger traffic, growing tourists' destinations and ease of access to air travel.
