Global Aluminum Spacers Market is valued approximately USD XX million in 2021 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2022-2028.

The Aluminum Spacers can be defined lightweight and non-magnetic material used to bridge the gap between the two objects. These spacers are utilized to reduce wear and tear, eliminate friction & vibration, and provide basic sealing properties between various objects. These spacers are used across different industries including Automotive sector, Building & Construction sector among others. The rising Automotive Sector worldwide and increasing end use applications of Aluminum Spacers as well as recent strategic initiatives from leading market players are factors that are accelerating the global market demand. For instance, According to International Energy Agency (IEA) estimates- during 2020, globally around 3 million new electric cars were registered and this number more than doubled in 2021 and reached to 6.6 million units. Furthermore, leading market players are working towards new acquisitions to enhance their geographical footprints. For instance, in April 2021, Italy based Alu-Pro, a leading aluminum spacer manufacturer acquired Erbsloh-Rolltech A/S of Denmark, a unit of Velbert, Germany based Erbsloh AG group. This acquisition would enable Alu-Pro to offer a complete range of spacers for insulating glass in aluminum, steel, and stainless steel as the company has strong presence in Scandanavia, Benelux, Germany, and Nordic countries. Also, growing industrialization in developing regions coupled with rising investment in building & construction Sector are anticipated to act as a catalyzing factor for the market demand during the forecast period. However, a volatile cost of raw

materials and availability of steel spacers impede the growth of the market over the forecast period of 2022-2028.

The key regions considered for the global Aluminum Spacers Mmarket study include Asia Pacific, North America, Europe, Latin America, and the Rest of the World. North America is the leading region across the world in terms of market share owing to the growing building and construction sector as well as presence of leading market players. Whereas, Asia pacific is anticipated to exhibit a significant growth rate over the forecast period 2022-2028.
