Abstracts

Global Animal Logistics Market is valued approximately USD XX billion in 2021 and is anticipated to grow with a healthy growth rate of more than XX% over the forecast period 2022-2029. Animal Logistics refers to safe transportation of livestock and pets from different mode of transport such as plane, ships, and vehicles. It involves safe & efficient loading, transporting and unloading animals from one place to another. Animals are being utilized across different application including in dairy industry, for meat, and as pets. Therefore, safe, and hygienic transportation of animals is very crucial due to increasing demand across the industries. The increasing consumption of meat worldwide and growing pet ownership worldwide as well as strategic initiatives from leading market players are key factors accelerating the market growth.

According to Statista – in 2021, the global meat industry was estimated at USD 897.5 billion, and the worldwide meat industry is projected to grow to USD 1.3 trillion by 2027. Also, rising adoption of IoT in logistics industry and increasing demand for animal in dairy industry would create lucrative growth prospectus for the market over the forecast period. However, stringent government regulations regarding transportation of animal impedes the market growth throughout the forecast period of 2022-2029.

The key regions considered for the Global Animal Logistics Market study includes Asia Pacific, North America, Europe, Latin America, and Rest of the World. North America is the leading region in terms of market share owing to presence of leading animal logistics service providers in the region as well as increasing demand for animal for meat consumption. Whereas Asia Pacific is expected to grow significantly during the

forecast period, owing to factors such as rising expansion of dairy sector as well as increasing penetration of leading market players in the region.

Major market player included in this report are:

American Airlines

Lan Cargo S.A
