Abstracts

Global Antiaging Products and Services Market is valued at approximately USD XX billion in 2022 and is anticipated to grow with a healthy growth rate of more than XX% over the forecast period 2023-2030. The global anti-aging products and services market refers to the market for products and services that are designed to reduce the signs of aging and improve overall skin health. This market includes a wide range of products and services such as anti-aging creams, lotions, serums, and masks, as well as non-invasive procedures such as botox, dermal fillers, and microdermabrasion. The major driving factors for the Global Antiaging Products and Services Market are the increasing aging population and rising awareness about the benefits of anti-aging products and services. Moreover, advancements in technology and product innovation and changing lifestyles and increasing disposable income are creating a lucrative growth opportunity for the market over the forecast period 2023-2030.

global population is aging at a rapid pace, is driving demand for anti-aging products and services. Skin-related issues, such as wrinkles, fine lines, and age spots, which can be addressed by anti-aging products and services. According to a report published by the United Nations in 2020, the global population of older persons (aged 65 and over) is

projected to double by 2050, reaching 1.5 billion people. This represents an increase of 16% in the proportion of older persons in the total population. Along with this, in 2021, the U.S. Census Bureau reported that the population aged 65 and older in the United States had grown to 56 million, representing 17.5% of the total population. This is an increase from 52 million in 2018. Moreover, a report published by the Australian Bureau of Statistics in 2021 found that the proportion of the population aged 65 and over in Australia had increased from 15% in 2011 to 17.7% in 2021. The report also projected that this proportion would continue to grow over the coming decades. However, the high cost of Antiaging Products and Services stifles market growth throughout the forecast period of 2023-2030.

The key regions considered for the Global Antiaging Products and Services Market study includes Asia Pacific, North America, Europe, Latin America, and Middle East & Africa. North America is the dominating market for anti-aging products and services, owing to the high disposable income of the population, rising awareness about anti-aging products and services, and a large population of aging baby boomers. The United States is the largest market in the region, followed by Canada. The Asia-Pacific region is expected to be the fastest-growing market for anti-aging products and services due to factors such as a large population of aging baby boomers, rising disposable income, and increasing awareness about anti-aging products and services. Japan, China, and South Korea are the largest markets in the region, with a strong demand for anti-aging products and services.
