This includes both active combat operations and freight, ammo, supplies, and military personnel transfer. Military forces all across the globe are using armored vehicle fire suppression systems in huge numbers, and certain countries are spending considerably in the development and purchase of advanced types. The market is driven by Rising defence expenditure and Advancements in defence technology. According to the Stockholm International Peace Research Institute (SIPRI), the top five military spenders are the United States, China, India, Russia, and the United Kingdom—accounted for 62 percent of worldwide military spending in 2020. However, South Korea and Chile, have redirected a portion of their military budget to pandemic response.
