Global Automobile Filters Market is valued approximately USD XXX billion in 2018 and is anticipated to grow with a healthy growth rate of more than XX% over the forecast period 2019-2026. Automotive Filters are used in vehicles for oil purity, fuel purity, air purity and emission exhaust purity in vehicles which helps engine to operate in smooth manner and improves efficiency and reduces maintenance cost of the vehicle. These filters maximize flow of clean air which minimizes engine damage as it requires continuous supply of fresh air for its smooth operations and enhanced life span. Further, increasing vehicle production and sales with increasing application of filters in these vehicles has led the adoption of Automobile Filters across the forecast period. For instance: As per Statista, the global auto industry expects to sell 77 million automobiles by the end of 2019. Also, regulations laid by the government for environmental safety as well as emission standards put forth by the regulatory bodies is expected to fuel the demand for Automobile Filters.

The regional analysis of global Automobile Filters market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World. Asia-Pacific is the leading/significant region across the world in terms of market share owing increasing disposable incomes, rapid industrialization and increase in passenger car sales. Also, High automotive output from India and China will create increased replacement demand in forecast years and favorable FDI policies on aftermarket parts manufacturing and government regulations focused on reducing the carbon emissions are to drive the market for Automotive filters in the region. Whereas,

Europe is also anticipated to exhibit highest growth rate / CAGR over the forecast period 2019-2026. Factors such as increased production of vehicles due to lower production costs, increased safety in operation of vehicles and prevalence of major automobile manufacturers would create lucrative growth prospects for the Automobile Filters market across European region.
