## **Abstracts**

Global Bamboo Furniture Market is valued approximately at USD 11.17 Billion in 2020 and is anticipated to grow with a healthy growth rate of more than 5.2% over the forecast period 2021-2027. Bamboo Furniture is considered as versatile, durable, suitable for moist or dry environments, and are environment friendly. The global Bamboo Furniture market is being driven by rising value of the furniture market worldwide. For instance, according to Statista, value of the furniture market worldwide is projected to increase worldwide from USD 509.8 billion in 2020 to USD 650.7 billion by 2027. Another important driving factor is the rising support from the government to promote bamboo furniture. For instance, in May 2020, Indian Institute of Technology Guwahati (IIT-G) of India designed bamboo furniture for Primary Health Centers in rural villages of Assam. Furthermore, the increasing investments in infrastructure developments, introduction of new products, and growing adoption of environment friendly products will provide new opportunities for the global Bamboo Furniture industry to excel. However, high maintenance required in hot climate may impede market growth over the forecast period of 2021-2027.

The regional analysis for the global Bamboo Furniture Market is based on the key regions such as Asia Pacific, North America, Europe, Latin America, and Rest of the World. Asia-Pacific is the leading region across the world and is also anticipated to exhibit the highest CAGR over the forecast period 2021-2027 owing to adoption of environment friendly furniture, rising bamboo production, increasing urbanization and rising demand for elegant interiors in the region.
