## **Abstracts**

Global Bed Head Panel Market is valued at approximately USDXX million in 2021 and is anticipated to grow with a healthy growth rate of more than XX% over the forecast period 2022-2028. Bed head panels are designed to converge all the important utilities around the patient's bed. These panels are specially designed for hospitals and clinics in a range of general and special care settings. These needs pertain to nurse call facilities, communication outlets, electrical sockets, medical gas outlets, and others. The rising incidences of various chronic conditions and lifestyle diseases, development of the public and private hospital infrastructure, coupled with the growing developments and emergence of novel technologies are attributing to the global market growth. For instance, according to a Statista report, the Indian healthcare industry worth around USD 194 billion in 2020, and it is projected to reach nearly USD 372 billion by 2022. Thereby, the growth of the healthcare sector is witnessing a positive influence on the market demand around the world. However, rising implications caused due to improper mobility and mechanical abrasion impede the growth of the market over the forecast period of 2022-2028. Also, the increasing healthcare expenditure and growing aging population are anticipated to act as catalyzing factors for the market demand during the forecast period.

The key regions considered for the global Bed Head Panel Market study include Asia Pacific, North America, Europe, Latin America, and the Rest of the World. Europe is the leading region across the world in terms of market share owing to the rapid technological developments and rise in the number of road accidents and surgical procedures. Whereas, Asia-Pacific is anticipated to exhibit the highest CAGR over the

forecast period 2022-2028. Factors such as the presence of huge patient pool, as well as increase in the number of clinical trials, would create lucrative growth prospects for the Bed Head Panel Market across the Asia-Pacific region.

Major market players included in this report are:

Precision UK Ltd.

Baxter

Novair Medical

AmcareMed Medical
