Abstracts

Global Beverage Cartons Market is valued approximately USD XXX billion in 2021 and is anticipated to grow with a healthy growth rate of more than XXX% over the forecast period 2022-2029. Beverage cartons are a commonly adopted form of packaging which protects juices and drinks, allowing their distribution and storage at temperatures or under refrigerated temperature. These cartons maintain the nutritional value, flavor, and freshness of beverages. Additionally, their portable design supports the development of on-the-go products to accommodate the fast-paced lifestyle of the millennial generation. The key factor driving the market growth is rising consumption of packaged dairy products that anticipated to create the demand for the market because the dairy products are widely used cartons for packaging the products. Also, another factor driving the market growth is growing demand for convenient packaging solution which support the market growth during forecast period.

The beverage cartons are highly used in packaging dairy products. Thus, the rising packaged dairy products consumption is supporting the market growth. According to Statista, in 2015, the market size of fresh packaged dairy products in India was USD 6.63 billion, in 2020 the number reached USD 11.68 billion, and the number is anticipated to reach USD 20.15 billion by 2025. However, the unavailability of recycling infrastructure in developing countries stifles market growth throughout the forecast period of 2022-2029.

The key regions considered for the Global Beverage Cartons Market study includes

Asia Pacific, North America, Europe, Latin America, and Rest of the World. Asia Pacific is the dominating region across the world in terms of market share, owing to the rising demand for dairy products and growing consumption of other beverages products in the region. Whereas, North America is also anticipated to exhibit highest growth rate over the forecast period, owing to factors such as increasing consumption of various beverages products and growing adoption of sustainable packaging solution would create lucrative growth prospects for the Beverage Cartons market across Asia Pacific region.
