Abstracts

Global Beverage Crates Market is valued approximately USD XXX million in 2019 and is anticipated to grow with a healthy growth rate of more than 6.3% over the forecast period 2020-2027. Beverage crates are large containers used to transport or store bulk beverage goods such as fruit juices, beer, milk products, and others made from various materials such as plastics, metals, wood, and others. The market is expected to witness remarkable growth owing to the surging demand from the beverage industry. The increasing consumption of Alcohol across the globe drives the demand for beverage crates. As per the National Survey on Drug Use and Health report in 2019, 85.6% of the US population aged more than 18 years drank alcohol at some point in their life while 69.5% drank in last year and 59.9% in the last month. This high consumption of alcohol increases the demand for crates to handle large quantities of beverage. Further the growth in the Food and beverage sector propels lucrative market growth. As per the Government of Food Processing India, the industry had over 1.25 billion consumers in India and is expanding rapidly. Moreover, the rising environmental concerns has directed manufacturers to innovate sustainable beverage crate solutions such as reusable and eco-friendly beverage by the use of materials such as recyclable, plastics and more. For instance: IPL Plastics Inc in 2020 introduced new range of sustainable crates such as Smart Crate Series and New Flapnest Series. Also, supportive government rules and regulations for the use of bio-degradable materials also propel the demand for sustainable solutions driving the market growth during the forecast

period. However, the disadvantages of the materials such as HDPE and PP impedes the growth of the market over the forecast period of 2020-2027.

The regional analysis of global Beverage Crates market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World. North America is the leading/significant region across the world in terms of market share owing to the presence of large number of food processing industries and high alcohol consumption in the region. Whereas, Asia-Pacific is also anticipated to exhibit highest growth rate / CAGR over the forecast period 2020-2027. Factors such as rapidly increasing food and beverage sector would create lucrative growth prospects for the Beverage Crates market across Asia-Pacific region.
