Abstracts

Global BMX Bikes Market is valued approximately at USD XX billion in 2020 and is anticipated to grow with a healthy growth rate of more than XX% over the forecast period 2021-2027. BMX bikes are specially designed bikes which are developed for off-road racing and stunt riding. BMX bikes are generally lighter in weight as well as offer greater efficiency as compared to motor bike while riding. The BMX Bikes market is being driven by growing participants for off-road activities and growth in interest in cycling as a fitness & recreational activity. Moreover, many key players have introduced various concepts related to BMX bikes, which is estimated to supplement the growth of the market globally. For instance, there are various companies, such as Mafiabike, Pacific Cycle Inc., Haro Bikes, and others, which have been working in the global BMX bikes market and are inclined toward offering products with different features, leading to the growth of the market during the forecast period. For instance, in 2018, Indian government started “National Public Bicycle Scheme” to support the bicycling infrastructure across the country. However, high cost of these bikes may impede market growth over the forecast period of 2021-2027.
