Abstracts

Global Boot Market is valued at approximately USD 30.43 billion in 2021 and is anticipated to grow with a healthy growth rate of more than 5.80% over the forecast period 2022-2029. Factors including expanding fashion consciousness, accelerated industrialization, and an increase in hikers and mountaineers are driving up product demand. Increased product sales as a result of a shift in customer preference toward attractive designs are driving growth in the boots market.

Rising initiatives by the key market players are creating lucrative growth opportunities for the market. For instance, Dr. Martens and A-COLD-WALL teamed up in February 2022. The Rikard 8-eye boot and the 3-eye shoe, two of Dr. Martens' most iconic boots, will be included in the collection. The fluorescent side panels and A-COLD-WALL logo on the shoes will be a special feature. The businesses have previously worked together. However, the high cost of Boots stifles market growth throughout the forecast period of 2022-2029.

The key regions considered for the Global Boot Market study include Asia Pacific, North America, Europe, Latin America, and Rest of the World. North America dominated the industry globally and held the largest share. North America is the largest regional market and is anticipated to maintain its dominance during the projection period as a result of the strong product demand in nations like the United States and Canada.

Additionally, the presence of top producers like Timberland, Red Wing Shoes, UGG, and Wolverine boosts product sales, supporting the expansion of the local boot market. Asia Pacific is anticipated to have the greatest CAGR. During the forecast period, a strong CAGR is anticipated for the Indian boot market. The demand for boots will rise as the middle-class disposable income levels in the developing nations of APAC rise. Additionally, the need for work and safety boots will increase due to rising industrialization and worker safety regulations.

Major market players included in this report are:

Timberland LLC

Wolverine Worldwide

Woodland Worldwide

Dr. Martens Airwair

Red Wing Shoe Company

Church & Co. Ltd.

R.M Williams

Sorel

Belstaff International Ltd.

The Frye Company

Recent Developments in the Market:

Supreme, a privately held international streetwear brand, was purchased by VF Corp., the parent company of Timberland, in December 2020 for USD 2.1 billion. The acquisition will hasten VF's transition to a customer-focused, retail-focused, hyper-digital business model while only moderately increasing its revenue. The partnership forged a strong bond between Supreme and VF, and Supreme now frequently works with VF's Vans, The North Face, and Timberland brands.

Wolverine and Halo collaborated to release the Master Chief, a limited-edition boot, in March 2022. The boots have an external heel bearing the number "117" and an UltraSpring cushioning midsole for lightweight comfort. Fans of Halo have exclusive access to the boots.
