Abstracts

Global Cam Walker Market is valued approximately USD XX million in 2021 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2022-2028.

The Cam Walker can be defined as CAM boot or below knee walking boot or moon boot, is an orthopedic device prescribed for the treatment and stabilization of severe sprains, fractures, and ligament tears in the ankle or foot. The growing prevalence of orthopedic injury and increasing penetration of online sales channels as well as recent product launches from leading market players are factors that are accelerating the global market demand. For instance, according to The National Center for Biotechnology Information, USA – as of 2020, around 7,214,915 patients were diagnosed with orthopedic injury in USA, resulting in 1,167,656 emergency orthopedic surgical procedures. Moreover, Fall-related injuries accounted for 51% of health care encounters and 61% of emergency orthopedic surgical procedures. Furthermore, leading market players are coming up with innovative products to capitalize the growing demand for Cam Walker. For instance, in September 2021, Colorado, USA based ActivArmor launched Innovative new Product – Walking Boot. These new boots are waterproof, washable and are designed to the patient's needs. Also, growing penetration of geriatric individuals coupled with rising healthcare spending in emerging economies are anticipated to act as a catalyzing factor for the market demand during

the forecast period. However, a high cost associated with Cam Walkers impede the growth of the market over the forecast period of 2022-2028.

The key regions considered for the global Cam Walker Market study include Asia Pacific, North America, Europe, Latin America, and the Rest of the World. North America is the leading region across the world in terms of market share owing to the growing healthcare spending and presence of leading healthcare players in the region. Whereas, Asia Pacific is anticipated to exhibit a significant growth rate over the forecast period 2022-2028. Factors such as the thriving growth of healthcare sector and rising incidences of orthopedic injuries in the region, would create lucrative growth prospects for the global Cam Walker Market across the Asia Pacific region.
