Abstracts

Global Cannabis Infused Edible Products Market is valued approximately USD XXX billion in 2019 and is anticipated to grow with a healthy growth rate of more than XXX% over the forecast period 2020-2027. A cannabis infused edible products is a food product that includes cannabinoids, particularly tetrahydrocannabinol (THC). Now a days, the utilization of cannabis-based foods & beverages is getting immense popularity as they offer several health benefits, including from healing insomnia, to seizures, inflammation, anxiety and chronic pain. There are over 100 distinct types of cannabinoids are accessible in the market among them tetrahydrocannabinol (THC) and cannabidiol (CBD) are the two extremely used cannabis. THC-dominant edibles are mostly used for medical and recreational purposes. Amidst the COVID-19 crisis, many industries are facing extreme difficulties due to the measures being undertaken to prevent the widespread of the novel coronavirus, but the cannabis industry is having a breakthrough moment. Since it is beneficial for COVID-19's respiratory effects, thus state and local governments gradually accepting the value and benefits of medicinal cannabis. Thus, this factor is expected to strengthen the demand for cannabis infused edible products. Furthermore, legalizing of recreational cannabis in various countries, escalating demand of cannabis-based wellness drink, along with rising disposable income of the consumers and improving living standards are the few factors responsible for high CAGR of the market over the forecast period. or instance, For instance, in 2018, the government of Canada has endorsed the consumption of cannabis among

adults and is also criticized to authorize the use of cannabis fortified edibles by October 2019. Also, the consumption of cannabis has been legalized across the countries of South and Central America, and Africa. This, in turn, is expected to accelerate the demand of cannabis infused edible products around the world. However, fluctuating prices of raw materials and the shortage of supplying high-quality cannabis in various countries are the major factor constraining the market growth during the forecast period of 2020-2027.

The regional analysis of global Cannabis Infused Edible Products market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World. North America is the leading/significant region across the world in terms of market share owing to the lifting of bans on consumption of cannabis in the production of food and beverages followed by the growth of food & beverage sector in the region. However, Asia-Pacific is anticipated to exhibit highest growth rate / CAGR over the forecast period of 2020-2027.
