Abstracts

Global Canned Fruits Market is valued approximately at USD xx Billion in 2020 and is anticipated to grow with a healthy growth rate of more than xx% over the forecast period 2021-2027. Canned fruits are stored using preservation to improve the shelf life of ready to eat fruits such as Tart apples, cranberries and other fruits. The global Canned Fruits market is being driven by growing demand for consumption of fruits to maintain healthy lifestyle. According to Statista, global production of fresh fruit has risen from 844.73 million metric tons in 2017 to 883.42 million metric tons in 2019. Another driving factor for the market growth is the increasing demand for ready & convenience food products due to hectic lifestyle. According to Statista, convenience food market size is projected to reach USD 585 billion by 2025 from USD 433 billion in 2019. Furthermore, the growing working population in urban areas, rise in the disposable income and rising penetration of e-commerce platforms around the world will provide new opportunities for the global Canned Fruits industry. However, presence of preservatives in canned fruits may impede market growth over the forecast period of 2021-2027.

The global Canned Fruits Market is analyzed for regional analysis on the basis of major regions such as Asia Pacific, North America, Europe, Latin America, and Rest of the World. Asia Pacific is the leading region across the world in terms of market share and is also anticipated to exhibit the highest CAGR over the forecast period 2021-2027 due to growing working population, rising demand for ready to eat meals, rise in introduction

of canned fruits with exotic flavors and expansion of food and beverages industry in the region.
