## Abstracts

Global CBD (Cannabidiol) Gummies Market is valued approximately USD XX billion in 2020 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2021-2027. Cannabidiol (CBD) is a chemical in the Cannabis sativa plant, also known as cannabis or hemp. The cannabinoids in CBD Gummies bind to receptors in the body, which help reduce stress. Growing prevalence of neurological diseases and increasing use of cannabis for the treatment of neurological disorders are key drivers for the growth of CBD (Cannabidiol) Gummies market. For instance, according to The Neurological Alliance UK's Neuro Numbers 2019 report- as of 2019, UK has an estimated 14.7 million neurological cases, which equates to 1 in 6 people suffering from one or more neurological condition. Also, as per the European Medicines Agency (EMA)- in September 2019, the European Medicines Agency (EMA) has approved GW Pharmaceutical's Cannabidiol oral solution, EPIDYOLEX. EPIDYOLEX is the first plant-derived cannabis-based medicine, approved by the European agency. Also, with the increasing demand for certified products by consumers and rising Psychiatric disorders, the adoption & demand for CBD (Cannabidiol) Gummies is likely to increase the market growth during the forecast period. However, strengthen government policies for CBD use impedes the growth of the market over the forecast period of 2021-2027.

The key regions considered for the global CBD (Cannabidiol) Gummies market study includes Asia Pacific, North America, Europe, Latin America, and Rest of the World. North America is the leading/significant region across the world in terms of market share owing to legalization of cannabis for medical purpose in the region. Whereas, Europe is

anticipated to exhibit highest growth rate / CAGR over the forecast period 2021-2027. Factors such as increasing demand for the product from healthcare industry and favorable government policies would create lucrative growth prospects for the CBD (Cannabidiol) Gummies market across Asia-Pacific region.
