Abstracts

Global Chlorophyll Color Market is valued approximately xx billion in 2020 and is anticipated to grow with a healthy growth rate of more than xx over the forecast period 2021-2027. Chlorophyll is a soluble green pigment which is present in all the plants and is naturally derived. Chlorophyll helps plants in the process of photosynthesis and is also used as a natural color in various products. Demand for chlorophyll color is boosting since there is a remarkable growth in public awareness regarding the health benefit of organic food products. Chlorophyll color is used in various segments such as skin care products, food and beverages, etc. According to a study by National Center for Biotechnology Information, chlorophyll contains antioxidant properties which are very beneficial for skincare which is ultimately boosting its demand in skin care industry. Increase in demand for chlorophyll in the food industry, especially in bakery products and the rising number of bakeries across the globe serves as another driver for the market. Chr. Hansen, a global bioscience firm located in Denmark, announced in April 2018 that it had purchased the Banker Wire manufacturing site in Wisconsin to expand its natural color production facilities in North America. The market is projected to be driven by such developments. However, in North America and Europe there are very strict policies regarding food colorants which impedes the growth of global market over the forecast period of 2021-2027.

The regional analysis of global Chlorophyll Color Market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World. North America is the leading region across the world in terms of market share owing to increasing awareness among consumers regarding health benefits of organic food products. Whereas, Asia-Pacific is also anticipated to exhibit highest growth rate over the forecast period 2021-2027. Factors such as growing demand for natural food colorants in the region would create lucrative growth prospects for the Chlorophyll Color Market across Asia-Pacific region.

Major market player included in this report are:

DDW The Color House
Archer Daniels Midland Company
McCormick & Company
Chr.Hansen A/S
Naturex S.A.
Riken Vitamin Co., Ltd.
Döhler Group
Kalsec Inc.
Sensient Colors LLC
