Abstracts

Global Chocolate Couverture Market is valued at approximately USD XX million in 2021 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2022-2028.

Chocolate Couverture can be defined as the finest form of Chocolate. It's a type of chocolate that contains a higher amount of cocoa butter (around 32–39%) than other baking or eating chocolate. The application of additional Cocoa offers a creamy mellow flavor to the Chocolate. Chocolate curvature is said to be rich in Flavan-3-ol, antioxidant compounds that improve cognition, lower blood pressure, and increase circulations. The growing demand for Functional Food and beverages and increasing expansion of Bakery & Confectionery Industry as well as recent initiatives from leading market players are factors that are accelerating the global market demand. For instance, according to Statista- as of 2022, the revenue in the global Confectionery & Snacks segment is estimated at USD 1560 billion, and the market is projected to grow annually by 5.09% between 2022 and 2027 to reach USD 1999.55 billion. Moreover, leading market players are coming up with new products to capitalize on the growing demand for Chocolate Couverture. For instance, in June 2021, Cacao Barry brand unveiled a

coverture chocolate made with 100 percent pure cacao fruit. The new Chocolate contains 40 percent less sugar than most dark chocolates available in the market. Also, growing emergence of quick service restaurants and increasing penetration of online sales channels are anticipated to act as catalyzing factors for the market demand during the forecast period. However, volatile costs of raw materials coupled with rising health consciousness among individuals impede the growth of the market over the forecast period of 2022-2028.

The key regions considered for the global Chocolate Couverture market study include Asia Pacific, North America, Europe, Latin America, and the Rest of the World. Europe is the leading region across the world in terms of market share owing to the growing consumption of curvature chocolates and presence of leading market players in the region. Whereas, Asia Pacific is anticipated to exhibit a significant growth rate over the forecast period 2022-2028. Factors such as the thriving growth of organized caf? chains and increasing penetration of online sales channels in the region would create lucrative growth prospects for the Chocolate Couverture market across the Asia Pacific region.
