Abstracts

Global Coffee Creamer Market is valued approximately USD 17.14 billion in 2021 and is anticipated to grow with a healthy growth rate of more than 5.6% over the forecast period 2022-2029. Coffee creamer is creamier, and thicker and has a little sweet flavour. Unlike milk, coffee creamer has calories and fat. It contains added ingredients such as artificial flavors, sugar, artificial flavors. The Coffee Creamer market is expanding because of factors such as rising consumer willingness to spend on healthy products and increased consumption of coffees at home. The number of cafes, coffee shops, and restaurants that sell coffee is also gradually growing, which is anticipated to raise demand for coffee creamer. Another factor that is anticipated to have an impact on market growth for coffee creamers is an increase in consumer spending power and per capita coffee consumption.

According to Statista, in year 2020, Worldwide non-alcoholic beverage market revenue stood at USD 1038,054 million which increased to USD 1155205 million in year 2021 and it is projected to reach at USD 144158 million by year 2025. Furthermore, rising consumption of non-dairy products and rising demand for ready to drink and rising number of cafe outlets is favoring the growth of market. However, the high cost of Coffee Creamer and fluctuation in prices stifles market growth throughout the forecast period of 2022-2029.

The key regions considered for the Global Coffee Creamer Market study includes Asia Pacific, North America, Europe, Latin America, and Rest of the World. North America dominated the space in terms of revenue, owing to the increasing number of lactose intolerant consumers in the regional market, rising number of target population in the region. Furthermore, Asia Pacific region is expected to have a significant rate owing to factors such as rising number of consumer preference to spent more on flavored coffee.
