Abstracts

Global Cold Gas Spray Coating Market is valued approximately at USD 1 billion in 2020 and is anticipated to grow with a healthy growth rate of more than 3.7% over the forecast period 2021-2027. Cold gas spray coating is used for repairing corrosive and structural components, which cannot be performed with welding. Growing use in the aerospace and automotive industry for aftermarket repair, rising utilization in medical industry and growing demand for consumer electronics are growing the demand for cold gas spray coating market. For instance, according to Statista, revenue of consumer electronics in Vietnam in 2020, saw increase of 34 percent over 2019 as it reaches over USD 1.3 billion. Furthermore, increasing application in oil and gas industry and advancements in spraying technology are expected to boost the demand in coming years. However, volatile economic conditions such as US-China trade war may hamper the growth during forecast period.

Among Asia Pacific, North America, Europe, Latin America, and Rest of the World, North America is dominating the world market in terms of revenue due to strong demand from end-user industries such as transport, electronics and others.
