Global Construction Project Management Software Market is valued approximately USD 1.4 billion in 2019 and is anticipated to grow with a healthy growth rate of more than 12.43% over the forecast period 2020-2027. Construction Project Management Software is a project management tool explicitly designed for professionals and construction companies. It facilitates the secure processing of the construction process for companies, improves efficiency, accountability and ensures smooth processing. The comprehensive growth of the construction sector globally had also given a significant boost to the adoption of construction management software from here on, increasing the growth of the construction project management software market worldwide. According to Statista, the growth rate of construction industry across India was approximated at 5.65 per cent from fiscal year 2015 to 2020, up from almost 2.95 per cent from fiscal year 2010 to fiscal year 2015. In January 2019, India's construction sector contributed more than 2.7 trillion Indian rupees to India's GDP. Buenos Aires is anticipated to have one of the largest increases in the city's construction costs between 2019 and 2020. Lower penetration of construction project management software in developing countries is expected to challenge the market growth over the forecast, in addition to lowering the increased cost of construction management software to smaller construction firms, which could hamper market growth. The growing number of construction initiatives in developing economies, in particular, offers a significant opportunity for the construction project management software market to expand

globally. As per Statista, Worldwide, construction industry spending in 2018 amounted to US\$ 11.4 trillion. Construction expenditure is projected to reach 14 trillion US dollars in 2025.

The regional analysis of global Construction Project Management Software market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World.
