## **Abstracts**

Global Contract Packaging Market is valued approximately at USD XX billion in 2019 and is anticipated to grow with a healthy growth rate of more than XX% over the forecast period 2020-2027. In recent years, the performance rate of e-commerce networks has been the standard for evaluating the development prospects of the contract packaging industry. Numerous industries-food, cosmetics, pharmaceuticals and agriculture-are increasingly moving to internet sales networks to expand their presence in worldwide. Growth in the contract packaging industry is largely dictated by the shifting demand of manufacturing companies for contract packagers, as they are primarily focused on cost management in order to spend more on their core sector. The entry of third-party logistics companies into the contract packaging industry is one of the main trends which helps to reduce the overall delivery period and also the combined costs of packaging, transport and distribution. However, the growing concern for the atmosphere gives importance to sustainable packaging. Manufacturers consider it impossible to rely

on advertising, in comparison to their main market fields and thus, choosing contract packagers to support them with their manufacturing by utilizing innovative packaging strategies. This is also projected to improve the contract packaging market. Growth in innovation and study in the pharmaceutical sector has culminated in the launch of innovative products with better efficiency relative to their predecessors. Recent advances in the medical sciences and enhancements of drugs currently accessible for many diseases and disorders are pushing the contract packaging industry indirectly, as the demand for packaging of drugs has grown exponentially. Moreover, major players are focusing on merger and acquisition to expand the product portfolio. For instance, In April 2019, CCL Industries Inc. manufacturers specialty label, security and packaging solutions for global corporations, government institutions, small business, and consumers, has acquired Hinsitsu Screen (Vietnam) Company Limited.
