Abstracts

Global Cosmetics and Personal Care Packaging Equipment Market is valued at approximately USD 4.29 billion in 2021 and is anticipated to grow with a healthy growth rate of more than 5.4% over the forecast period 2022-2028. Increasing demand for the healthier and personalized products and increasing demand for the e-commerce sector are factors contributing to the market growth. For instance: according to Statista, the sales of the retail products in the e-, commerce sector are expected to rise to USD 7,391 billion in the year 2025 from USD 4,248 billion in the year 2020. However, reduction in sales of beauty and cosmetics products, owing to COVID-19 cases and rising demand for cheap skincare products in emerging economies, such as India and China impede the growth of the market over the forecast period of 2022-2028.
