Abstracts

Global Crime Insurance Market is valued at approximately USD XX billion in 2021 and is anticipated to grow with a healthy growth rate of more than XX% over the forecast period 2022-2029. Crime Insurance is a type of insurance that protects businesses and individuals from theft and forgeries. It also offers protection against vandalism, social engineering, and employee fraud among others. The growing expansion of the BFSI Sector and increasing adoption of commercial crime insurance from organizations as well as strategic initiatives from leading market players are key factors accelerating the market growth.

According to Statista – as of 2022, the revenue in Banking, Finance & Insurance worldwide is estimated at USD 3.72 trns and the market is projected to grow at an annual growth rate of 2.47% between 2022 and 2025 to reach to USD 4 trillion by 2025. Also, the rising emergence of online insurance distribution channels and growing insurance penetration in emerging markets would create lucrative growth prospects for the market over the forecast period. However, lack of awareness in developing regions coupled with high premium Costs associated with Crime Insurance impede the market growth throughout the forecast period of 2022-2029.

The key regions considered for the Global Crime Insurance Market study includes Asia Pacific, North America, Europe, Latin America, and Rest of the World. North America is the leading region in terms of market share owing to the presence of leading market players as well as the rising adoption of commercial crime insurance in the region.
