## **Abstracts**

Global Crown Closures Market is valued approximately USD XX billion in 2021 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2022-2028. Crown Closures refers to metal cap widely used in beverages industry for seal opening of bottles. Crown closures are largely used in nonalcoholic beverages like beer etc. Growing nonalcoholic beverages industry and rising demand for anti-contaminated closures are key drivers for the growth of Crown Closures market. Also, with growing food and beverages industry in emerging economies and rising disposable income in developing regions, the adoption & demand for Crown Closures is likely to increase the market growth during the forecast period.
