Abstracts

Global Crypto Trading Platforms Market is valued at approximately USD XX billion in 2020 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2021-2027. Crypto Trading Platforms is a blockchain technology which consists of distributed data storage, peer-to-peer transmission, a consensus mechanism, encryption algorithms, and smart contracts. Significant growth opportunities in emerging and developed markets and transparency of distributed ledger technology have led to the adoption of Crypto Trading Platforms across the forecast period. For Instance: as per the Tech Jury, Bitcoin had a market capitalization of \$1072.21 billion as of February 21st, 2021 and the global blockchain market will go up to \$23.3 billion by 2023. Also, with the rising population, the adoption & demand for Crypto Trading Platforms is likely to increase the market growth during the forecast period. However, an uncertain regulatory framework impedes the growth of the market over the forecast period of 2021-2027.

The regional analysis of global Crypto Trading Platforms market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World. Europe is the leading region across the world in terms of market share owing to the support to digital currency. Whereas, North America is also anticipated to exhibit the highest growth rate over the forecast period 2021-2027. Factors such as the presence of developed countries as the USA, Canada and way forwarding in digitalization would create profitable growth prospects for the Crypto Trading Platforms market across North America region.
