Abstracts

Global Curbside Recyclable Packaging Market is valued approximately USD XXX billion in 2020 and is anticipated to grow with a healthy growth rate of more than XXX% over the forecast period 2021-2027. Curbside recyclable packaging refers to a packaging solution made from recycled materials obtained from household waste. Increasing demand for eco-friendly and cost-effective packaging and increase in demand from the e-commerce sector are factors contributing to the market growth. For instance: according to Amasty Ltd, the retail sales of the e-commerce sector are expected to go up to USD 4479 billion by the end of the year 2021 from USD 2290 billion in 2017. Thus, the growth of e-commerce sector will ultimately lead to an increase in the rise of Curbside Recyclable Packaging in the long run. However, lack of recycling manufacturing units and lack of machines, technologies and skilled professionals impedes the growth of the market over the forecast period of 2021-2027. Also, increasing demand from end-user industries is likely to increase the growth of the market in the forecasting period.

The regional analysis of global Curbside Recyclable Packaging market is considered for the global regions (North America, Latin America, Europe, Asia-Pacific, Rest of the World) has led to the analysis that North America is a significant region across the world in terms of market share owing to a shift towards recyclable packaging.
