## **Abstracts**

Global Date Syrup Market is valued approximately USD XX billion in 2021 and is anticipated to grow with a healthy growth rate of more than XX % over the forecast period 2022-2028. Date Syrup is dark colored pulpy sauce which is derived from date. Date syrup is obtained by boiling dates in water. Date syrup contains minerals like potassium, calcium, and magnesium. Since date syrup has natural sugar, which doesn't increase the blood sugar levels as much as artificial sugar does, it is a safe choice for people with diabetes. Growing diabetic population and increasing demand for natural sweeteners are key drivers for the growth of Date Syrup market. For instance, according to The International Diabetes Federation (IDF)- as of 2021 approximately 537 million adults (between age of 20-79 years) are having diabetes. This number is further estimated to rise to 643 million by the year 2030 and further increase to 783 million by the year 2045. Also, as per global database management company Statista- In the year 2020 global market for natural sweeteners was estimated at USD 22.49 billion and as per estimation by the year 2026 the market would increase by USD 5.5 billion and would reach to USD 27.94 billion. Also, with the shifting trend towards organic products and rising disposable income, the adoption & demand for Date Syrup is likely to increase the market growth during the forecast period. However, supply chain disruption due to pandemic impedes the growth of the market over the forecast period of 2022-2028.

The key regions considered for the global Date Syrup market study includes Asia Pacific, North America, Europe, Latin America, and Rest of the World. North America is the leading region across the world in terms of market share owing to increasing demand for natural sweeteners in the region. Whereas, Middle East is anticipated to exhibit highest growth rate over the forecast period 2022-2028. Factors such as presence of leading market players and increasing consumption of dates in the region would create lucrative growth prospects for the Date Syrup market across Asia-Pacific region.
